Culture Village NONSAN 02 JUL - 14 JUL YOUTH/ART 15 vols  
 Nonsan(<http://goo.gl/wCyiBk>) is located in the lower part of Korea and about 180km away from Seoul. There are many historical places around in Nonsan. Youth in Nonsan has disadvantages in accessing cultural exposes and various experiences as like other locals. Therefore, SangsangMadang Nonsan is established in order to support the creative performance and young artist. It also provides educational opportunities to local youth on exhibition, concert and festival.

Work: Participants will organize a global youth camp for 3 days 2 times based on their traditional culture for a local youth. During this project, 30~60 youth, ages 14~17 in a local take part in a summer camp. The motto in this project is not only to support them to understand different cultures but also to make them creatively think by making a performance together. Games, songs, and craft ideas from your countries will help give the camp an international flair! At first week, you will have a time to plan, where your creative side is needed to prepare activities for the youth. However, you have to keep in mind that they are unfamiliar with speaking English.

Accommodation and food: Guest house in Sangsangmadang / Meals are provided and self-catering.

Location&Terminal: Nonsan, Chungnam / Incheon international airport, Nonsan train station

Leisure Activities: Visiting historical places. (Temple, museum)

Requirements: Interest in artistic performance & Highly motivated for youth activities.

Actions for a Local BUSAN15 JUL - 25 JUL ENVI 15 vols  
 Busan(<http://goo.gl/maps/YxVBH>) is the second biggest city in Korea and about 400km away from Seoul. It is famous with port, food and various cultures because historically it has ever been the gate to all different kind of cultures from abroad. Present and past heritages exist together harmoniously. This project is held in cooperation with Haeundae Volunteer center in order to promote the citizenship through voluntary service. International volunteers in this project will join various activities and campaign to achieve the objectives.

**Work:** Participants will do mural painting at the old wall along the village in Songjeong train station, in order to decorate in various ways, which is the historical building in Busan. Haeundae beach is famous in Korean but also has the issues related with environment due to a lot of visitors. Mostly, visitors throw away a lot of trash throughout this area during the night. Participants will join the campaign and action to preserve the beach around.

**Accommodation and Food:** Guest house / Self-catering within a group

Busan(<http://goo.gl/maps/s4E9m>) is the 2nd biggest city in Korea and it's about 400km away from Seoul to south. This project is held in cooperation with 'Art-in-nature' in Busan. They are specialized with installation art in the villages and city. They are interested in reviving the city outlook through art such as painting, making post, board, benches so on for non-profit purpose. The works will be exhibited in the art local festival. The project site is very unique due to its location. It's a small village in the very modern city but located in the mountain so that it has a fresh air and nice landscape with nature.

Work: The Art-in-nature marks the 10th anniversary in this year. The host has a plan to open a 10th art camp to celebrate and exhibit their work for people in Busan. Participants will work with artists on the wall and shops in the corner in order to renovate and create new design in the village. They will assist the exhibition of artists from other countries as well so that there are various physical works during a project. The artists are excited to work with international young people.

Accommodation and food: Guest house in Art-in-nature / Self-catering within a group

World Heritage GYEONGJU 06 AUG - 16 AUG CULT 15 vols  
 Gyeongju(<http://goo.gl/maps/TcjUb>) is 350km away from Seoul to east-south. There are many historical attractions enjoyed by many visitors and you are easy to find world heritage site in this city.  
 This project is selected as a project of WHV (World Heritage Volunteer) operated by UNESCO World Heritage Center and CCIWS (Coordinating Committee of International Voluntary Service). Project site is called 'Yangdong village' (<http://whc.unesco.org/en/list/1324>).

The village puts efforts to preserve the village and promote the value of the village and heritages to visitors and public. However, people and money have come into Yangdong village indiscriminately and the village could be progressively commercialized without any spirit to integrate a real understanding about the village, its inhabitants and World Heritage. There are more senior citizens than young people living in the village, and few are capable to deal with these issues properly.

Especially, volunteers will run the World heritage awareness educational program and campaigns for visitors and local children. It has very easy access from Seoul by KTX(Express train) or express bus.

Work: Participants will prepare and organize World heritage awareness educational programs based on non-formal education for visitors and local children.

They will also renovate and clean the village pavilions of the World Heritage site.

Accommodation and food: The community center in town / Self-catering within a group

Location and Terminal: Yangdong village, Gyeongju / Incheon international airport, Gyeongju KTX train station.

Leisure Activities: Visiting historical places in Gyeongju city during a free day.

Requirement: Interest in learning Korean culture and world heritage.

Their experience and ideas are highly welcomed and applied.

Partner: Seogwipo YWCA (Cultural NGO), Jeju Provincial Office (Government)

Work: As part of the World Heritage Volunteers (WHV) project, KNCU-01 focuses on preservation and promotion of UNESCO's World Heritage Site, Jeju Volcanic Island and Lava Tubes. Jeju which was created by volcanic activity is known for its unique volcanic features, and the entire island itself is like a volcanic museum. There are 368 oreum on the island (&#8251; oreum: It means "small mountain" in Jeju dialect) and over 160 lava tubes are scattered on the island. It's very rare to see a small island that has both oreum and caves in the world. The value of Jeju was proved as the island received as the island was designated Biosphere Reserve in 2002, World Natural Heritage in 2007 and Global Geopark in 2010, making the sub-tropical island only place on Earth to receive all three UNESCO designations in natural sciences. Therefore, we believe that volunteer activities in Jeju should be made available not only to domestic youths but to youths around the world, to appreciate and preserve world heritage. Activities to preserve the site will include picking up trash, trimming the weeds, and conducting street campaigns just to name a few. In collaboration with Seogwipo YWCA, the volunteers will also have the opportunity to interact with local community children who come to Seogwipo YWCA as the after-school community learning centre. Here, you will teach them culture of your countries, games, as well as conduct activities to preserve the World Heritage together.

Accommodation and food: You will be living in the community centre next to Seowipo YWCA. It is equipped with two rooms, kitchen and a bathroom. The volunteers will need to take turns in cooking, showcasing their own food. On the first day, volunteers will gather to make a schedule as to who will cook, clean, etc.

Special requirements: KNCU-01 requires volunteers who are motivated to learn about World Heritage and preserving the nature. We are also looking for volunteers who have experience working with children as a significant amount of time will be spent at YWCA.

Work: Muan-gun is a region in the Southwest of Korean peninsula. Renowned for its beautiful landscape and rich biodiversity, the coastal areas have been enlisted as the UNESCO World Heritage Tentative List and as a Biosphere Reserve. As the area is currently on the Tentative List, bringing together international volunteers around the world to promote the area and conduct campaigns to raise awareness would provide to be worthwhile experience for not only the volunteers but also the local residents. The volunteers can experience not only ecological but also cultural preservation and sustainability of local residents. The volunteers are expected to work at the coastal areas to preserve the natural beauty of the Tidal Flat. You will also have to work with the local residents, renovating the villages, contributing to the sustainability of the residents. Manual labour such as carrying stones, painting the walls, and helping construction work is expected. Lastly, there will be time to connect with the local middle school and high school students, where you will conduct cultural classes.

Work: It has been more than 50 years since the Korean peninsula has been torn apart by the Korean War.

The Demilitarized Zone (DMZ) that splits our land into two, is the physical manifestation of our division. Even now, it is a reminder of our nation's pain and frustration, an endangering factor to world peace and a shame to civilization. Nevertheless, the whole area of DMZ is also the historical stage for an incredible ecological revival, bustling with nature and life which no manpower can substitute. The isolation from wars, conflicts and killings has transformed the territory into a peaceful habitat for wildlife. The Korea DMZ Peace & Life Valley deals with the pain of both of our divided countries, obligated to make this movement grounded upon mutual respect for differences. Such dedication and determination will be the basis for enacting the movement geared towards specifying and realizing the value of peace and life. In this respect, the work in KNCU-03 will be largely divided into two. First, the volunteers will have a chance to learn about the concept of peace, war and appreciation of the ecosystem. As DMZ carries a special meaning to the workcamp and the local residents, it is vital that the volunteers be acquainted with the connotations. Second part of the workcamp will be carrying out agricultural work in the organic farm located within the DMZ Peace & Life Valley.

Accommodation and food: You will be staying at a dormitory provided by the DMZ Peace & Life Valley foundation. The food will be served at the cafeteria only on Wednesday; you will need to prepare your own food on the rest of the days.
