BACKGROUND: The Foundation "Prima del Dopo Capodarco Onlus¿ (¿Before the After Foundation¿) was born in 2004 on the base of more than forty years experience of ¿Capodarco Community¿ for disabled people. The aim of "Prima del Dopo" is to support and provide tools for families in which disabled people live. Without a process of self awareness they would run the risk of being unprepared when their parents would no longer be able to look after them. It is 3rd year already that the "Prima del Dopo Foundation" works for the autonomy of disabled people thanks to the adult foster home called "Milly e Memmo" in Grottaferrata (near Rome), where they experience an autonomy process and a form of community life. Currently the group involved of the project counts 15-18 people, aged between 20 and 50 years old with learning disabilities and in some cases of physical disabilities. In the foster they do everyday small works, sports, handicrafts and gradually get the chance to experience autonomy from their families. And there are already positive results of this work: a group of 5-6 people with the support of social workers of the Foundation live permanently in a community apartment of ¿Milly e Memmo¿ after completing their course of autonomy. Near the foster house there are some social cooperatives that works for the integration of disabled people, a farm, a restaurant where they work with disabilities, other family houses, a Professional Training Centre, a nursery, a shop of organic food and fair-trade commerce.

WORK: Volunteers will support the staff for the everyday activities of the group of disabled people, they would encourage self expression, communication and interpersonal relationships through activities such as singing, music, drawing and painting, diary, beauty salon, recycling paper, day-excursion and home cleaning. LOCATION: Rome ¿ Ortona

BACKGROUND: The association "Il Cammino di San Tommaso¿ (The Path of St Thomas) aims to create a trekking route that connects Rome and Ortona promoting the concepts of "experimental tourism", "slow-tourism" and "active travelling". This event was already done last summer (26th May ¿ 9th June) when 20 trekkers and 3 international volunteers walked from Ortona to Roma in 15 days during the main project ¿Da Tommaso a Pietro, In Cammino¿ that moved also 20 knights, 50 cyclists and 300 pilgrims on the same route and days. Obviously with different departures from Ortona. All the participants arrived together in St. Peter Square in Rome where they assisted to the traditional catholic celebration ¿Angelus¿, during which, they received a particular greeting by Pope Francis.

Description of PROJECT

Workcamp: Place: Ferrara ¿ Italy

Shift: CULT/IBOIT04 22/8-1/9

Number of volunteers per shift: 8IT + 7INT

DESCRIPTION OF THE PROJECT

For the fifth year in a row IBO Italia is guest of the Ferrara Buskers Festival for the solidarity. After the 2012 edition, when IBO Italy collaborated to support some villages of Emilia Romagna deeply damaged by the earthquake of 20-29 may 2012; and 2013, when we supported volunteerism and youth mobility, also for 2014 strengths are united to collaborate for the youth volunteering.

That's how the project of a new workcamp has raised, with the aim to involve a group of volunteers to support this project.

The Ferrara Buskers Festival (www.ferrarabuskers.com), with its 800.000 spectators, is the biggest event in the world dedicated to the street art. It was founded in 1988 with the aim of enhancing the role of street artists and to get to know a city rich in history and charm ¿ objectives which have been fully accomplished.

For many spectators from all over Italy and, significantly, even from abroad, the Festival is an exciting tour around the world in search of familiar and exotic sounds; it¿s a passionate treasure hunt to discover the most original instruments, the most inspired performances and the most creative costumes. It is, above all, an endless mobile jamboree, that moves in a thousand directions, invading the streets and squares of one of the most beautiful city centers in Italy.

The protagonists of the Festival are the buskers themselves; travelling artists who, in their daily activities, try to give some good humour and poetry to passers-by. Since the third edition, every year the festival is dedicated to a guest nation from which a large part of the 20 invited groups come from. In addition to the invited ones, accredited groups participate at their own expenses and according to the selection they can perform even just for one day. Nobody receives a fee, just the offers that the public drops in their ¿hat¿. The shows follows a daily rotation, so the groups changes their ¿stage¿ every day.

Since 2011, the Festival organization is involved in the project Ecofestival, to reduce waste to the least and to fix elevated standard about the respect of the environment for events of wide range. Separate collection of paper, plastics and aluminum during the event. Bureau Veritas has certified the results achieved by the project.

Furthermore, the Ferrara Buskers Festival wants to be a great moment of solidarity, sustaining the training to the values of volunteering, youth mobility in an intercultural world; the value of an active citizenship, to ideally unite Ferrara to Italy and to the whole world.

WORK

The volunteers will be involved in a fund-raising activity in 7 different enter points in of the action area of the buskers (Ferrara historical center).
