Final Date: 29/06/2015

Min Age: 18

Max Age: 30

Places: 2

**Description of Workcamp:** WF01 Hveragerði - Health and Environment 15/06 - 29/06 ENVI / MANU

Project Location: Hveragerði is a small town of about 1,700 inhabitants that lies some 45 km east of Reykjavík. This friendly little community sits on top of a highly active geothermal field, which provides heat for hundreds of greenhouses where fruit, flowers and vegetables are produced throughout the year. Even bananas grow in these greenhouses! The name Hveragerði means 'hot springs garden.' Geothermal energy is Hveragerði's lifeblood, and you probably won't find such a natural wonder in the middle of a populated area anywhere else in the world. Nearby you will find an even more geothermally active site: Gufudalur, the lovely 'Steam Valley' behind the town. This whole valley is full of hot springs, geysers, mud pots, fumaroles and steaming vents.

Our host is the Rehabilitation and Health Clinic, which is a part of the Natural Health Association of Iceland. Every year approximately 2,000 patients and other guests enjoy their diverse rehabilitation programs, which are focused on an approach that builds self-confidence and personal responsibility for the patients' own health. The Clinic has earned a solid reputation, both in Iceland and internationally, since its foundation in 1955 for personal and effective care of patients. It is one of the two most important rehabilitation clinics in Iceland. "In the last years this ongoing camp has been the most popular camp in our organization"

Work: The Natural Health Association has a horticultural and environmental department, including forestry, gardening, and greenhouses, which is where Worldwide Friends volunteers work most of the time. The nature of the work depends largely on weather conditions, which can change quickly. The volunteers will also maintain the green areas around the clinic, collect herbs for making tea and participate in other environmental tasks which are needed. Volunteers should bring clothes appropriate for outdoor work, but also clothes for working inside the warm greenhouses. The working hours are usually from 09 am to 15 pm 5 days a week and volunteers will have one hour lunch break.

Leisure: Worldwide Friends volunteers have free access to the local geothermally-heated swimming pools. Traditionally, natural pools have played an important social role in Icelandic culture. Most Icelandic pools offer indoor and outdoor swimming, as well as hot tubs and saunas or steam rooms. Hveragerði is known for having one of the best areas in Iceland for hiking, including a river heated by hot springs.

WF Iceland will also organise reasonably-priced weekend excursions to some of the most popular, beautiful areas and natural wonders that Iceland has to offer. Excursions include unique Icelandic sights such as glacial lagoons, waterfalls, volcanic and geothermal areas, glaciers, geysirs, lava forests, hot-springs, rhyolite

mountain ranges, steam-vents, or even icebergs.

**Accommodation and Food:** Worldwide Friends volunteers stay in a fully equipped bungalow consisting of several double bedrooms and a living room. Volunteers need to bring their own sleeping bag, but beds are provided. Free wireless internet is available, but volunteers need to bring their own laptops if they would like to connect to it.

All meals are provided and cooked by our hosts, the Rehabilitation and Health Clinic. The menu for the project is primarily vegetarian, but two times a week it includes locally-caught fish. The food at the Rehabilitation and Health Clinic is known throughout Iceland for its high quality. The standard of food and accommodation does not get better than in this camp.

**Language:** A basic knowledge of English is required for this workcamp.

**Terminal:** Flights arrive at Keflavik International Airport (KEF), just south of Reykjavik, Iceland. WF Iceland will offer a minibus trip from Reykjavik to Hveragerdi for 55 euro which includes the Golden circle south Iceland and bus ride to Reykjavik after the camp.

**Additional Information:** There is an extra participation fee of 180,- Euros for this workcamp.

**Code:** WF03/15**Year:** 2015**Name:** JOURNALISM AND PHOTOGRAPHING (C. ART/STUDY

Project Location: Scoured by Ice Age glaciers, the dramatic east coast boasts long, narrow fjords with steep sides and jagged peaks which contrast with inland fertile farmlands. Natural harbours mean picture-postcard fishing villages and seemingly never-ending roads cross the region, providing beautiful sweeping views.

"Fjarðabyggð" is an association of villages in the Eastern fjords of Iceland. It includes the towns of Eskifjörður, Fáskrúðsfjörður, Mjóifjörður, Neskaupstaður, Reyðarfjörður and Stöðvarfjörður, all tiny fishing villages with steep mountains towering just behind the houses. In this area you will see some of the features that make Iceland a unique place in the world: spectacular fjords with a rich sea life, a great variety of birdlife, and countless breathtaking hiking paths. You will explore the area during your stay in the east.

Work: Every year WF Iceland is hosting hundreds of international volunteers participating in projects all round the island. WF Iceland publishes a magazine called UNA where people can read about the life of the organization.

In the beginning of the project volunteers will receive an introduction about the tasks - afterwards we will choose a topic for the newsletter. This is a great opportunity to step into different projects and to get to know Iceland in a better way. The group will take photos and make videos and interviews with volunteers, local hosts and people living in the area. The outcome will be published in the UNA WF magazine.

At the end of the project we will prepare the final version of the magazine and publish it online.

During this time of the year the weather in Eskifjörður can be very unfriendly and cold. We strongly recommend you to bring really warm and waterproof clothes. You should also be aware of the fact that the weather can get so extreme that it will not allow us to go out of the accommodation for some days. Don't forget to bring your cameras and tripods because we will also go for some Auroras hunting. A part of this workcamp will concentrate on intercultural learning and exchange. Every evening a different country will cook for the rest of the Group and will be in charge of presenting their origin country and culture in a non formal way. It could be a presentation, games, theater or however you would like to show it. Therefore we recommend you to bring food, photos or whatever you think is important and nice for the worldwide evenings.

This work camp is a way to enjoy an amazing time in Iceland with other international volunteers and to have an incredible experience where participants share their knowledge with each other while they are exploring creativity, environmental issues and intercultural learning.

Leisure: WF Iceland will organise reasonably-priced weekend excursions to some of the most popular, beautiful areas and natural wonders that Iceland has to offer. Excursions include unique Icelandic sights such as waterfalls, volcanic and geothermal areas, glaciers, lava forests, hot-springs, rhyolite mountain ranges, steam-vents, or even icebergs.

The area in the East is also good for hiking so please bring your hiking shoes.

Accommodation and Food: Worldwide Friends volunteers stay in a nice indoor community facility offering basic facilities. Beds are provided, however volunteers should bring their own warm sleeping bags.

Food is included for the duration of the workcamp, however everyone is expected to do their fair share of the cooking and cleaning. Since it is always nice to try new and different dishes, volunteers are encouraged to bring along their favourite recipes from home!

There will be internet connection available.

To keep in mind, don't forget your cameras and tripods. A Laptop could be very useful as well. Really warm clothes since we are going to a very isolated place which is very cold in winter. Please bring also traditional food from your country, photos and other things

Language: A basic knowledge of English is required for this workcamp.

Requirements: Visual Arts skills will be considered especially in the selection process.

Terminal: Intl. Airport: Keflavík (KEF), Reykjavík. The closest national airport to the camp site is Egilsstaðir airport which is 40 km away from the project's site. Flights arrive at Keflavik International Airport (KEF), just south of Reykjavik. WF Iceland will offer a minibus trip from Reykjavik to the East for a fair price (150 EURO for the round trip which is almost 1.400 km in total). On the way to the camp we will go through the South to the East of the island. After the camp we will go through the North and west to Reykjavik. This trip includes unique Icelandic sights such as glacial lagoons, waterfalls, volcanic and geothermal areas, glaciers, lava fields, hot-springs, rhyolite mountain ranges, steam-vents, or even icebergs.

Additional Information: There is an Extra participation fee of 180,- Euro for this workcamp.

Initial Date: 06/07/2015

Final Date: 20/07/2015

Min Age: 18

Max Age: 30

Places: 2

Description of Workcamp: WF140 GOGG - Nature in the south of Iceland 06/07 - 20/07ENVI

Project Location: This camp will take place in a small community called Grímsnes- and Grafningshreppur which is located in the middle of the south area of Iceland. In the area you can find some of the historical places in Iceland - for example Þingvellir which is by far Iceland's most famous historic site. The Alþingi, or general assembly, first met there in AD930, and continued to do so for nearly nine centuries, until 1798. Various important events in the Icelandic Sagas took place at Þingvellir, and in 1930 it was declared a National Park. In 2004 Þingvellir was added to the UNESCO World Heritage List.

Nowhere on earth is the junction between the European and American tectonic plates in the Earth's crust as clear as in the southwest, and at Þingvellir: the plates diverge here by as much as 2 cm per year. But the gap is constantly being filled, as volcanoes have been erupting regularly throughout Iceland's history.

Not far away is the old Episcopal seat of Skálholt, which was the centre of the church and Christianity in Iceland from the mid-11th century until the end of the 18th.

But the region has other attractions: places of outstanding natural beauty include magnificent waterfalls, of which Gullfoss (Golden Falls) is the best known. In many geothermal areas villages have grown up, where exotic fruits and vegetables are grown in greenhouses heated by hot springs.

The best known hot spring is Geysir, from which derives the English word 'geyser' for spouting hot springs: the big Geysir is surrounded by many more springs of all shapes and sizes.

A little further east are two of Iceland's most active volcanoes. Mt. Hekla has erupted about 20 times in Icelandic history, and Mt. Katla, under the Mýrdalsjökull glacier, is almost as active. Many years have now passed since Mt. Katla last erupted, and according to geoscientists it is overdue for another burst of activity.

Work: The volunteers will be working with the environmental department of the community. Most of the work will consist of planting trees and taking care of the environment in the surrounding area.

Our work will also depend on weather conditions and that's why we have to be flexible. Please keep in mind that the work might be physically hard and you should be prepared for unfriendly weather, even though, hopefully, it will be nice most of the time. This is a perfect camp for people who like outdoor work and physical challenges.

Leisure: Worldwide Friends volunteers have free access to the local geothermally-heated swimming pool in the area. Traditionally, natural pools have played an important social role in Icelandic culture. Most Icelandic pools offer indoor and outdoor swimming, as well as hot tubs and saunas or steam rooms. Hveragerði is known for having great areas for hiking, including a river heated by hot springs. WF Iceland will also organise reasonably-priced weekend excursions to some of the most popular, beautiful areas and natural wonders that Iceland has to offer. Excursions include unique Icelandic sights such as glacial lagoons, waterfalls, volcanic and geothermal areas, glaciers, geysirs, lava forests, hot-springs, rhyolite mountain ranges, steam-vents, or even icebergs.

Accommodation and Food: Worldwide Friends volunteers stay in a local school. Volunteers need to bring their own sleeping bag, but mattresses are provided. Free wireless internet is available, but volunteers need to bring their own laptops if they would like to connect to it.

Food will be provided for the duration of the workcamp and everyone is expected to do his/her fair share of the cooking/cleaning. It would be nice to try new and different dishes, so please remember to bring along recipes from your own countries.

Language: A basic knowledge of English is required for this workcamp.

Terminal: Flights arrive at Keflavik International Airport (KEF), just south of Reykjavik, Iceland. WF Iceland will offer a minibus trip from Reykjavik to the camp for 55 euro which includes the Golden circle south Iceland and bus ride to Reykjavik after the camp.

Additional Information: There is an extra participation fee of 180,- Euros for this camp

**Description of Workcamp:** WF14 Katla Geo park and Vík in Mýrdal 22/06 - 03/07 ENVI / MANU

Project Location: Katla Geopark <http://www.katlageopark.is/> is Iceland's first geopark and it opens up a natural wonderland to the visitor. A top priority of the park is to protect the natural environment, promote local sustainable development, introduce local culture and place a strong emphasis on nature tourism.

Katla Geopark got its name from one of its most known volcanoes, Katla which is under the glacier Mýrdalsjökull. The geopark is 9542 km<sup>2</sup> or around 9,3 % of the total area of Iceland with population around 2700.

Katla Geopark is in every sense the land of ice and fire, with its towering glaciers and active volcanoes. These forces have been shaping the land for thousands of years and the nearest examples of that are the powerful eruptions in Eyjafjallajökull 2010 and Grímsvötn 2011. But there is also more amazing landscapes in the area, mountains, lakes, black sandy beaches, green pastures and meadows, powerful glacial rivers, beautiful waterfalls and vast lava fields. Katla Geopark is accessible all year round, and each season has its own magical charm in this spectacular natural paradise.

Vík in Mýrdalur is Iceland's most southerly village, bordered by the glacial river Jökulsá to the west and the river Blautakvísl to the east. It's northern border is the Mýrdalsjökull glacier, which caps the volcanic Mt. Katla, while its southern limits are black sands and the rolling Atlantic waves. The district lives mainly by agriculture. Although this community of 600 inhabitants faces the open Atlantic, Vík is the only seaside settlement in Iceland left without a harbour due to natural circumstances. The natural beauty of the area is spectacular. Just east of the village's outskirts lies one of Europe's biggest arctic tern breeding grounds. South of Vík is a beautiful beach, which is one of the world's ten best island beaches. A short hike within the close vicinity of Vík is sure to satisfy all serious nature lovers and bird watchers. Vík and its surroundings is one of the main bird life areas in Iceland.

Work: The volunteers will help with different tasks in the Geo Park and also in the village of Vík. They will mark and fix hiking paths, put up signs, paint weeding and other environmental tasks.

Leisure: Worldwide Friends volunteers have free access to the local swimming pool. Traditionally, natural pools have played an important social role in Icelandic culture. Most Icelandic pools offer indoor and outdoor swimming, as well as hot tubs and saunas or steam rooms. WF Iceland will also organise reasonably-priced weekend excursions to some of the most popular, beautiful areas and natural wonders that Iceland has to offer. Excursions include unique Icelandic sights such as glacial lagoons, waterfalls, volcanic and geothermal areas, glaciers, geysirs,

lava forests, hot-springs, rhyolite mountain ranges, steam-vents, or even icebergs.

**Accommodation and Food:** Worldwide Friends volunteers stay in a nice and fully equipped community building offering basic facilities. Mattresses are provided, however volunteers should bring their own warm sleeping bags. Wi-Fi internet is available.

Food is included for the duration of the workcamp, however everyone is expected to do their fair share of the cooking and cleaning. Since it is always nice to try new and different dishes, volunteers are encouraged to bring along their favorite recipes from home!

**Language:** A basic knowledge of English is required for this workcamp.

**Terminal:** Flights arrive at Keflavik International Airport (KEF), just south of Reykjavik, Iceland. WF Iceland will offer a minibus trip from Reykjavik to Vik for 60 euro.

**Additional Information:** There is an extra participation fee of 180,- Euros for this workcamp.

Project: ENVI-MANU - Environmental-Manual work

Initial Date: 31/07/2015

Final Date: 12/08/2015

Min Age: 18

Max Age: 30

Places: 2

**Description of Workcamp:** WF16 East of Iceland - close to nature 31/07 - 12/08 ENVI / MANU

Project and location: Scoured by Ice Age glaciers, the dramatic east coast boasts long, narrow fjords with steep sides and jagged peaks which contrast with inland fertile farmlands. Natural harbours mean picture-postcard fishing villages and seemingly never-ending roads cross the region, providing beautiful sweeping views.

"Fjarðabyggð" is an association of villages in the Eastern fjords of Iceland. It includes the towns of Eskifjörður, Fáskrúðsfjörður, Mjóifjörður, Neskaupstaður, Reyðarfjörður and Stöðvarfjörður, all tiny fishing villages with steep mountains towering just behind the houses. In this area you will see some of the features that make Iceland a unique place in the world: spectacular fjords with a rich sea life, a great variety of birdlife, and countless breathtaking hiking paths. You will explore the area during your stay in the east.

Work: Most of the work will consist of cleaning and beautifying the towns and the surrounding area. We will also do other environmental tasks for example clean the coastline, plant trees or build hiking paths.

Our work will also depend on weather conditions and that's why we have to be flexible. Please keep in mind that the work might be physically hard and you should be prepared for unfriendly weather, even though, hopefully, it will be nice most of the time. This is a perfect camp for people who like outdoor work and physical challenges.

Leisure time: Worldwide Friends volunteers have free access to the local geothermal-heated swimming pool in Eskifjörður. Traditionally, natural pools have played an important social role in Icelandic culture. Most Icelandic pools offer indoor and outdoor swimming, as well as hot tubs and saunas or steam rooms. WF Iceland will organise reasonably-priced weekend excursions to some of the most popular, beautiful areas and natural wonders that Iceland has to offer. Excursions include unique Icelandic sights such as waterfalls, volcanic and geothermal areas, glaciers, lava forests, hot-springs, rhyolite mountain ranges, steam-vents, or even icebergs.

The area in the East is also good for hiking so please bring your hiking shoes.

Accommodation and food:

The volunteers will stay in the WF house in Eskifjörður. Beds/mattresses will be provided and everyone is asked to bring his/her own warm sleeping bags and towels. The food will be supplied for the duration of the work camp and everyone is expected to do his/her fair share of the cooking/cleaning. It would be nice to try new and different dishes, so please remember to bring along recipes from your own countries.

Language: The language of the camp is English.

Terminal: Intl. Airport: Keflavík (KEF), Reykjavík. The closest national airport to the camp site is Egilsstaðir airport which is 40 km away from the project's site. Flights arrive at Keflavik International Airport (KEF), just south of Reykjavik. WF Iceland will offer a minibus trip from Reykjavik to the East for a fair price (150 EURO for the round trip which is almost 1.400 km in total). On the way to the camp we will go through the South to the East of the island. After the camp we will go through the North and west to Reykjavik. This trip includes unique Icelandic sights such as glacial lagoons, waterfalls, volcanic and geothermal areas, glaciers, lava fields, hot-springs, rhyolite mountain ranges, steam-vents, or even icebergs.

Additional Information: There is an extra participation fee of 180,- Euro for this workcamp.

Initial Date: 11/07/2015

Final Date: 22/07/2015

Min Age: 18

Max Age: 30

Places: 2

**Description of Workcamp:** WF22 Raufarhöfn - near to the arctic circle 11/07 - 22/07 RENO/ENVI

Project Location: The village of Raufarhöfn is the community that lies farthest north in Iceland. It is located in the eastern part of Melrakkasletta close to the Arctic Circle. The population of Raufarhöfn is about 200 and most of the people there earn their living from fishing and fish processing. The harbor is very beautiful and partly shaped by nature itself. A wide and untouched open area surrounds the village with a lot of birds and varied vegetation. In summer one will observe wild migratory birds within the village being a part of the village life with the villagers most often waking up in the morning to the songs of birds. The coastline with its inlets and creeks is filled with driftwood and reaches out into the Arctic Sea. Away and on the surface of the sea various sea-birds will be spotted and an occasional seal. On the beach waders strut and inland on the grassy moorlands there are dozens of lakes filled with trout. In the vicinity many species of ducks, waders and species that favor heaths and moorlands may be observed.

Work: This camp is about renovation, painting, cleaning and fixing things around the WF house. Raufarhofn is a very isolated place and in the same time very magical. We will work about 6 hours a day in order to make our house in the North a much better place to live. the house is old and we been using it in the last 4 years very much so it is the right time to renovate the place and give it a nice new look. Raufarhofn is a place full of energy and amazing landscapes. This is the right place to enjoy your free time taking photos and having walks around the coast line. For sure children and Youth from the village will very interesting to get to know you and take part in some of our cultural dinners or even workshops which we can develop if volunteers are happy and dynamic enough. If the weather allow us we will also work in cleaning the coast line around the town of Raufarhofn. Picking up garbage and making a better and cleaner place at least one or two days during the camp.

This work camp is a way to enjoy an amazing time in Iceland with other international volunteers and to have an incredible experience where participants share their knowledge with each other while they are exploring creativity, environmental issues and intercultural learning.

Leisure: There is few easy things to do in leisure time in Raufarhofn. There you can walk (about 18 km go and back) to the light house which is the most North Eastern point of Iceland. The line of the Arctic Circle frame that area of Iceland closing the water of Atlantic Ocean and opening the gates to the Greenlandic Sea. After having made the walk you can get a certificate in the local Hotel which confirms you visit to the Arctic Circle. Another positive thing about Raufarhofn especially if you like birds is that the village becomes a migrant birds nest giving so much life to the place.

Raufarhofn is the Icelandic tundra, full of black and blue berries during the season.

If you are volunteering while the berries season is taking place you will have the opportunity to make your own jam, brownies, cake and other delicious meals based on wild berries. Also the tundra area is full of lakes where fishing is easy to do and free as well. We will have some small fishing equipment to try to get some fresh catch of the day. :)

Accommodation and Food: Worldwide Friends volunteers stay in the Worldwide Friends house offering basic facilities. Beds are provided, however volunteers should bring their own warm sleeping bags.

Food is included for the duration of the workcamp, however everyone is expected to do their fair share of the cooking and cleaning. Since it is always nice to try new and different dishes, volunteers are encouraged to bring along their favorite recipes from home!

Language: A basic knowledge of English is required for this workcamp.

Terminal: Intl. Airport: Keflavík (KEF), Reykjavík. The closest national airport to the camp site is Thorshofn airport which is 40 km away from the project's site.

Flights arrive at Keflavik International Airport (KEF), just south of Reykjavik, Iceland. WF Iceland will offer a minibus trip from Reykjavik to Raufarhöfn for the price of 150 EURO which includes a trip around the island (Total 1.400 km) starting from Reykjavik going through the North to the East of the island. After the camp we will go through the east and south of Iceland. This trip includes unique Icelandic sights such as glacial lagoons, waterfalls, volcanic and geothermal areas, glaciers, geysirs, lava forests, hot-springs, rhyolite mountain ranges, steam-vents and icebergs.

If you are volunteering while the berries season is taking place you will have the opportunity to make your own jam, brownies, cake and other delicious meals based on wild berries. Also the tundra area is full of lakes where fishing is easy to do and free as well. We will have some small fishing equipment to try to get some fresh catch of the day. :)

Accommodation and Food: Worldwide Friends volunteers stay in the Worldwide Friends house offering basic facilities. Beds are provided, however volunteers should bring their own warm sleeping bags.

Food is included for the duration of the workcamp, however everyone is expected to do their fair share of the cooking and cleaning. Since it is always nice to try new and different dishes, volunteers are encouraged to bring along their favorite recipes from home!

Language: A basic knowledge of English is required for this workcamp.

Terminal: Intl. Airport: Keflavík (KEF), Reykjavík. The closest national airport to the camp site is Thorshofn airport which is 40 km away from the project's site.

Flights arrive at Keflavik International Airport (KEF), just south of Reykjavik, Iceland. WF Iceland will offer a minibus trip from Reykjavik to Raufarhöfn for the price of 150 EURO which includes a trip around the island (Total 1.400 km) starting from Reykjavik going through the North to the East of the island. After the camp we will go through the east and south of Iceland. This trip includes unique Icelandic sights such as glacial lagoons, waterfalls, volcanic and geothermal areas, glaciers, geysirs, lava forests, hot-springs, rhyolite mountain ranges, steam-vents and icebergs.

Additional Information: There is an Extra participation fee of 180,- Euro for this work camp.

Places: 2

**Description of Workcamp:** WF306 Sustainable living in Reykjavik and the WF farm / RENO 06/07 - 16/07 ART

**Project Location:** Reykjavik is a city full of energy, just waiting for you to experience it. Powered by heat from the earth below, with ever-changing weather sweeping across the landscape, its natural features are matched by the energy of its residents. Think of the qualities of a great city - fun, culture, nature, clean air - and Reykjavik has them in spades. All the advantages of a modern, forward-looking society are complemented by the beautiful natural setting. In a country of only just over 300,000 people, the Reykjavik Capital Area has a population of about 200,000. However, since it's the only major city in the country, Reykjavik has a lot of the amenities that you would only expect to find in a much larger center elsewhere in the world.

Reykjavik is the world's northernmost capital city and is centred on the Seltjarnarnes Peninsula. Come at the right time of year, and in favorable conditions you will see the city's skyline silhouetted against the glowing, shimmering curtain of the aurora borealis, also known as the northern lights. Reykjavik is framed by the majestic Mt. Esja and the blue waters of Faxaflói Bay to the north, while rugged lava-fields spread to the southeast. On a clear sunny day, the Snaefellsjökull glacier glitters on the western horizon like a crystal.

**Work:** The sustainable living camp has two major activities.

The organization is renovating an old farmhouse in the outskirt of Reykjavik 15 km away from the capital centre. Since the creation of Worldwide Friends, the organization has been looking for the opportunity to set up a project to renovate and work in farm. The volunteers will help us with the renovation and to take care of the work in the farm. We have chickens, a greenhouse for growing herbs, tomatoes and cucumbers and a big piece of land where we grow potatoes, carrots, lettuce and other types of vegetables.

Volunteers will also participate in workshops related to visual art and decoration in the farm and surrounding area.

**Leisure:** On weekends, the volunteers can enjoy Reykjavik's amazing nightlife, which is world-renowned for its wide array of bars, clubs, and concerts.

WF Iceland will also organise reasonably-priced weekend excursions to some of the most popular, beautiful areas and natural wonders that Iceland has to offer. Excursions include unique Icelandic sights such as glacial lagoons, waterfalls, volcanic and geothermal areas, glaciers, geysirs, lava forests, hot-springs, rhyolite mountain ranges, steam-vents, or even icebergs.

**Accommodation and Food:** Worldwide Friends volunteers stay in our house in Sveinsstaðir which is located in the outskirt of Reykjavik. This place is like a farm

in the city so you can enjoy pure nature and at the same time the city life of the capital. Volunteers need to bring their own sleeping bag and towels, but beds/mattresses and bed linens are provided. Wireless internet access is provided free of charge, and volunteers also have free access to shared desktop computers in communal areas.

Food is included for the duration of the workcamp, however everyone is expected to do their fair share of the cooking and cleaning. Since it is always nice to try new and different dishes, volunteers are encouraged to bring along their favorites recipes from home!

Terminal: Flights arrive at Keflavik International Airport (KEF), just south of Reykjavik, Iceland. WF Iceland will offer a minibus trip from Reykjavik to Sveinsstadir for 55 euro which includes the Golden circle south Iceland and bus ride to Reykjavik after the camp.

Additional Information: There is an extra participation fee of 180,- Euro for this workcamp.

Max Age: 30

Places: 1

Description of Workcamp: WF15 South Iceland - The village of the hot springs 20/07 - 31/07  
ENVI/MANU

Project Location: Hveragerði is a small town of about 1,700 inhabitants that lies some 45 km east of Reykjavík. This friendly little community sits on top of a highly active geothermal field, which provides heat for hundreds of greenhouses where fruit, flowers and vegetables are produced throughout the year. Even bananas grow in these greenhouses! The name Hveragerði means 'hot springs garden.' Geothermal energy is Hveragerði's lifeblood, and you probably won't find such a natural wonder in the middle of a populated area anywhere else in the world. Nearby you will find an even more geothermally active site: Gufudalur, the lovely 'Steam Valley' behind the town. This whole valley is full of hot springs, geysers, mud pots, fumaroles and steaming vents.

Work: The volunteers will be working with the environmental department of the village. Most of the work will consist of cleaning and beautifying the town and the surrounding area, painting playgrounds and maintaining green areas. We will also do some pure environmental tasks for example working in the forestry, plant trees, built hiking paths and etc.

Our work will also depend on weather conditions and that's why we have to be flexible. Please keep in mind that the work might be physically hard and you should be prepared for unfriendly weather, even though, hopefully, it will be nice most of the time. This is a perfect camp for people who like outdoor work and physical challenges.

Leisure: Worldwide Friends volunteers have free access to the local geothermal-heated swimming pools. Traditionally, natural pools have played an important social role in Icelandic culture. Most Icelandic pools offer indoor and outdoor swimming, as well as hot tubs and saunas or steam rooms. Hveragerði is known for having great areas for hiking, including a river heated by hot springs.

The volunteers will have the opportunity to bath in the hot river near to the village, to discover the hot springs in town and in the neighbourhood and of course to go for hike in the amazing area near to the village.

WF Iceland will also organise reasonably-priced weekend excursions to some of the most popular, beautiful areas and natural wonders that Iceland has to offer. Excursions include unique Icelandic sights such as glacial lagoons, waterfalls, volcanic and geothermal areas, glaciers, geysirs, lava forests, hot-springs, rhyolite mountain ranges, steam-vents, or even icebergs.

Accommodation and Food: Worldwide Friends volunteers stay in a local school. Volunteers need to bring their own sleeping bag, but mattresses are provided. Free wireless internet is available but volunteers need to bring their own laptops if

they would like to connect to it.

Food will be provided for the duration of the workcamp and everyone is expected to do his/her fair share of the cooking/cleaning. It would be nice to try new and different dishes, so please remember to bring along recipes from your own countries.

Language: A basic knowledge of English is required for this workcamp.

Terminal: Terminal: Flights arrive at Keflavik International Airport (KEF), just south of Reykjavik, Iceland. WF Iceland will offer a minibus trip from Reykjavik to Hveragerdi for 55 euro which includes the Golden circle south Iceland and bus ride to Reykjavik after the camp.

Additional Information: There is an extra participation fee of 180,- Euros for this workcamp.

Max Age: 30

Places: 2

**Description of Workcamp:** WF39 Eistnaflug - Heavy Rock festival 04/07 - 14/07 FEST /ENVI

Project and location:

Neskaupstaður is a medium size town by Icelandic standards. With its 1.420 inhabitants, it has the largest population in the East Fjords. The town has been growing and prospering since the early 1900´s and is almost completely self sufficient thanks to the fishing industry. Sitting in the middle of nowhere, away from other villages and communities, the town is equipped with all the necessary facilities and stores: a bakery, a local dairy, supermarkets, banks, a post office, a school, a sports hall, a swimming pool, a church, a hospital, a harbor, a airstrip, a hotel, a jazz club, a rescue centre, etc. As a matter of fact, it has all the services and professionals you would expect in a larger town, with the exception of an optician! On the east side of town the wildlife reserve and a large recreational area facing the ocean. In the lower section of the reserve, called Hagi, lies the famous Páskahellir (Easter Cave), a rock vault over the shore. Holes left by thick, 10 to 12-million-year-old tree trunks can be seen inside the vault and, in true Icelandic spirit, various folk tales are associated with the cave. Neskaupstaður can be reached only driving through a one-way tunnel over the highest year round pass in Iceland.

Eistnaflug is a metal festival in Iceland that has taken place annually since the summer of 2005. Eistnaflug is an indoor festival situated in Neskaupstaður a quaint little town located on the Norðfjörður fjord on the Eastern coast of Iceland, 700km away from Reykjavik

It started out as a small one day metal festival on the 27th of August 2005 but has since grown into a four day festival where metal, hardcore, punk, rock and indie bands share the stage.

The line up usually consists of 30-40 bands, most of which are Icelandic. Among foreign acts that have performed at the festival are At The Gates (SE), Tyrant (SE), Napalm Death (UK), Triptykon (CH), Secrets Of The Moon (DE) Hamferð (FO), The Monolith Deathcult (NL) and Cephalic Carnage (US). Domestic bands that have often played the festival include Sólstafir, Momentum, Innvortis, Saktmóðigur, Severed Crotch, Gone Postal, Carpe Noctem, Celestine and many more.

Musically, Eistnaflug is also a remarkable melting pot, with a few selected, prime foreign acts stacking up against a massive selection of all the great things the Iceland music scene has to offer every year. There are no boundaries from indie rock to hardcore to black metal, everything that's good is accepted and embraced at Eistnaflug.

Work: We will help the organizers of the festival to carry out different tasks. For example, we will take care of the venues before and after the concerts, control the access to the festival area and prepare the camping site. We will assist the local organization in keeping the area clean during the festival. We will also do some

environmental work in cooperation with the local community before and after the festival.

Leisure time: Worldwide Friends volunteers have free access to the local geothermally-heated swimming pool in Eskifjörður. Traditionally, natural pools have played an important social role in Icelandic culture. Most Icelandic pools offer indoor and outdoor swimming, as well as hot tubs and saunas or steam rooms. WF Iceland will also organise reasonably-priced weekend excursions to some of the most popular, beautiful areas and natural wonders that Iceland has to offer. Excursions include unique Icelandic sights such as lagoons, waterfalls, volcanic and geothermal areas, glaciers, lava forests, hot-springs, rhyolite mountain ranges or steam-vents..

Volunteers will also have free access to the concerts during the festival.

Accommodation and food:

We will be staying in a house owned by the local community in Neskaupstaður / Eskifjordur offering basic facilities. Mattresses will be provided and everyone is asked to bring his/her own warm sleeping bag. We will take showers at the local swimming pool and sports centre near by the house. It is possible that we will also stay in tents for one or two nights during the festival just to get the right spirit. The food will be supplied for the duration of the work camp and everyone is expected to do his/her fair part of the cooking/cleaning. It would be nice to try new and different dishes, so please remember to bring along recipes from your own countries.

Language: The language of this camp is English.

Terminal: Intl. Airport: Keflavík (KEF), Reykjavík. The closest national airport to the camp site is Egilsstaðir airport which is 40 km away from the project's site. Flights arrive at Keflavik International Airport (KEF), just south of Reykjavik. WF Iceland will offer a minibus trip from Reykjavik to the East for a fair price (150 EURO for the round trip which is almost 1.400 km in total). On the way to the camp we will go through the South to the East of the island. After the camp we will go through the North and west to Reykjavik. This trip includes unique Icelandic sights such as glacial lagoon , waterfalls, volcanic and geothermal areas, glaciers, lava fields, hot-springs, rhyolite mountain ranges, steam-vents, or even icebergs.

Additional Information: There is an extra participation fee of 180,- Euro for this workcamp.

**Description of Workcamp:** WF52 East of Iceland - close to nature 12/08 - 24/08 ENVI / MANU

Project and location: Scoured by Ice Age glaciers, the dramatic east coast boasts long, narrow fjords with steep sides and jagged peaks which contrast with inland fertile farmlands. Natural harbours mean picture-postcard fishing villages and seemingly never-ending roads cross the region, providing beautiful sweeping views.

"Fjarðabyggð" is an association of villages in the Eastern fjords of Iceland. It includes the towns of Eskifjörður, Fáskrúðsfjörður, Mjóifjörður, Neskaupstaður, Reyðarfjörður and Stöðvarfjörður, all tiny fishing villages with steep mountains towering just behind the houses. In this area you will see some of the features that make Iceland a unique place in the world: spectacular fjords with a rich sea life, a great variety of birdlife, and countless breathtaking hiking paths. You will explore the area during your stay in the east.

Work: Most of the work will consist of cleaning and beautifying the towns and the surrounding area. We will also do other environmental tasks for example clean the coastline, plant trees or build hiking paths.

Our work will also depend on weather conditions and that's why we have to be flexible. Please keep in mind that the work might be physically hard and you should be prepared for unfriendly weather, even though, hopefully, it will be nice most of the time. ART/STUDY

Project Location: Scoured by Ice Age glaciers, the dramatic east coast boasts long, narrow fjords with steep sides and jagged peaks which contrast with inland fertile farmlands. Natural harbours mean picture-postcard fishing villages and seemingly never-ending roads cross the region, providing beautiful sweeping views.

"Fjarðabyggð" is an association of villages in the Eastern fjords of Iceland. It includes the towns of Eskifjörður, Fáskrúðsfjörður, Mjóifjörður, Neskaupstaður, Reyðarfjörður and Stöðvarfjörður, all tiny fishing villages with steep mountains towering just behind the houses. In this area you will see some of the features that make Iceland a unique place in the world: spectacular fjords with a rich sea life, a great variety of birdlife, and countless breathtaking hiking paths. You will explore the area during your stay in the east.

Work: Every year WF Iceland is hosting hundreds of international volunteers participating in projects all round the island. WF Iceland publishes a magazine called UNA where people can read about the life of the organization.

In the beginning of the project volunteers will receive an introduction about the tasks - afterwards we will choose a topic for the newsletter. This is a great opportunity to step into different projects and to get to know Iceland in a better way. The group will take photos and make videos and interviews with volunteers, local hosts and people living in the area. The outcome will be published in the UNA WF magazine.

At the end of the project we will prepare the final version of the magazine and publish it online.

During this time of the year the weather in Eskifjörður can be very unfriendly and cold. We strongly recommend you to bring really warm and waterproof clothes. You should also be aware of the fact that the weather can get so extreme that it will not allow us to go out of the accommodation for some days. Don't forget to bring your cameras and tripods because we will also go for some Auroras hunting. A part of this workcamp will concentrate on intercultural learning and exchange. Every evening a different country will cook for the rest of the Group and will be in charge of presenting their origin country and culture in a non formal way. It could be a presentation, games, theater or however you would like to show it. Therefore we recommend you to bring food, photos or whatever you think is important and nice for the worldwide evenings.

This work camp is a way to enjoy an amazing time in Iceland with other international volunteers and to have an incredible experience where participants share their knowledge with each other while they are exploring creativity, environmental issues and intercultural learning.

Leisure: WF Iceland will organise reasonably-priced weekend excursions to some of the most popular, beautiful areas and natural wonders that Iceland has to offer. Excursions include unique Icelandic sights such as waterfalls, volcanic and geothermal areas, glaciers, lava forests, hot-springs, rhyolite mountain ranges, steam-vents, or even icebergs.

The area in the East is also good for hiking so please bring your hiking shoes.

Accommodation and Food: Worldwide Friends volunteers stay in a nice indoor community facility offering basic facilities. Beds are provided, however volunteers should bring their own warm sleeping bags.

Food is included for the duration of the workcamp, however everyone is expected to do their fair share of the cooking and cleaning. Since it is always nice to try new and different dishes, volunteers are encouraged to bring along their favourite recipes from home!

There will be internet connection available.

To keep in mind, don't forget your cameras and tripods. A Laptop could be very useful as well. Really warm clothes since we are going to a very isolated place which is very cold in winter. Please bring also traditional food from your country, photos and other things

Language: A basic knowledge of English is required for this workcamp.

Requirements: Visual Arts skills will be considered especially in the selection process.

Terminal: Intl. Airport: Keflavík (KEF), Reykjavík. The closest national airport to the camp site is Egilsstaðir airport which is 40 km away from the project's site. Flights arrive at Keflavik International Airport (KEF), just south of Reykjavik. WF Iceland will offer a minibus trip from Reykjavik to the East for a fair price (150 EURO for the round trip which is almost 1.400 km in total). On the way to the camp we will go through the South to the East of the island. After the camp we will go through the North and west to Reykjavik. This trip includes unique Icelandic sights such as glacial lagoons, waterfalls, volcanic and geothermal areas, glaciers, lava fields, hot-springs, rhyolite mountain ranges, steam-vents, or even icebergs.

**Description of Workcamp:** WF77 Hveragerði - Health and Environment 13/07 - 27/07 ENVI / MANU

Project Location: Hveragerði is a small town of about 1,700 inhabitants that lies some 45 km east of Reykjavík. This friendly little community sits on top of a highly active geothermal field, which provides heat for hundreds of greenhouses where fruit, flowers and vegetables are produced throughout the year. Even bananas grow in these greenhouses! The name Hveragerði means 'hot springs garden.' Geothermal energy is Hveragerði's lifeblood, and you probably won't find such a natural wonder in the middle of a populated area anywhere else in the world. Nearby you will find an even more geothermally active site: Gufudalur, the lovely 'Steam Valley' behind the town. This whole valley is full of hot springs, geysers, mud pots, fumaroles and steaming vents.

Our host is the Rehabilitation and Health Clinic, which is a part of the Natural Health Association of Iceland. Every year approximately 2,000 patients and other guests enjoy their diverse rehabilitation programs, which are focused on an approach that builds self-confidence and personal responsibility for the patients' own health. The Clinic has earned a solid reputation, both in Iceland and internationally, since its foundation in 1955 for personal and effective care of patients. It is one of the two most important rehabilitation clinics in Iceland. "In the last years this ongoing camp has been the most popular camp in our organization"

Work: The Natural Health Association has a horticultural and environmental department, including forestry, gardening, and greenhouses, which is where Worldwide Friends volunteers work most of the time. The nature of the work depends largely on weather conditions, which can change quickly. The volunteers will also maintain the green areas around the clinic, collect herbs for making tea and participate in other environmental tasks which are needed. Volunteers should bring clothes appropriate for outdoor work, but also clothes for working inside the warm greenhouses. The working hours are usually from 09 am to 15 pm 5 days a week and volunteers will have one hour lunch break.

Leisure: Worldwide Friends volunteers have free access to the local geothermally-heated swimming pools. Traditionally, natural pools have played an important social role in Icelandic culture. Most Icelandic pools offer indoor and outdoor swimming, as well as hot tubs and saunas or steam rooms. Hveragerði is known for having one of the best areas in Iceland for hiking, including a river heated by hot springs.

WF Iceland will also organise reasonably-priced weekend excursions to some of the most popular, beautiful areas and natural wonders that Iceland has to offer. Excursions include unique Icelandic sights such as glacial lagoons, waterfalls, volcanic and geothermal areas, glaciers, geysirs, lava forests, hot-springs, rhyolite

mountain ranges, steam-vents, or even icebergs.

**Accommodation and Food:** Worldwide Friends volunteers stay in a fully equipped bungalow consisting of several double bedrooms and a living room. Volunteers need to bring their own sleeping bag, but beds are provided. Free wireless internet is available, but volunteers need to bring their own laptops if they would like to connect to it.

All meals are provided and cooked by our hosts, the Rehabilitation and Health Clinic. The menu for the project is primarily vegetarian, but two times a week it includes locally-caught fish. The food at the Rehabilitation and Health Clinic is known throughout Iceland for its high quality. The standard of food and accommodation does not get better than in this camp.

**Language:** A basic knowledge of English is required for this workcamp.

**Terminal:** Flights arrive at Keflavik International Airport (KEF), just south of Reykjavik, Iceland. WF Iceland will offer a minibus trip from Reykjavik to Hveragerdi for 55 euro which includes the Golden circle south Iceland and bus ride to Reykjavik after the camp.

**Additional Information:** There is an extra participation fee of 180,- Euros for this workcamp.

Project and location: Scoured by Ice Age glaciers, the dramatic east coast boasts long, narrow fjords with steep sides and jagged peaks which contrast with inland fertile farmlands. Natural harbours mean picture-postcard fishing villages and seemingly never-ending roads cross the region, providing beautiful sweeping views.

"Fjarðabyggð" is an association of villages in the Eastern fjords of Iceland. It includes the towns of Eskifjörður, Fáskrúðsfjörður, Mjóifjörður, Neskaupstaður, Reyðarfjörður and Stöðvarfjörður, all tiny fishing villages with steep mountains towering just behind the houses. In this area you will see some of the features that make Iceland a unique place in the world: spectacular fjords with a rich sea life, a great variety of birdlife, and countless breathtaking hiking paths. You will explore the area during your stay in the east.

Work: Most of the work will consist of cleaning and beautifying the towns and the surrounding area. We will also do other environmental tasks for example clean the coastline, plant trees or build hiking paths.

Our work will also depend on weather conditions and that's why we have to be flexible. Please keep in mind that the work might be physically hard and you should be prepared for unfriendly weather, even though, hopefully, it will be nice most of the time. This is a perfect camp for people who like outdoor work and physical challenges.

Leisure time: Worldwide Friends volunteers have free access to the local geothermal-heated swimming pool in Eskifjörður. Traditionally, natural pools have played an important social role in Icelandic culture. Most Icelandic pools offer indoor and outdoor swimming, as well as hot tubs and saunas or steam rooms. WF Iceland will organise reasonably-priced weekend excursions to some of the most popular, beautiful areas and natural wonders that Iceland has to offer. Excursions include unique Icelandic sights such as waterfalls, volcanic and geothermal areas, glaciers, lava forests, hot-springs, rhyolite mountain ranges, steam-vents, or even icebergs.

The area in the East is also good for hiking so please bring your hiking shoes.

Accommodation and food:

The volunteers will stay in the WF house in Eskifjörður. Beds/mattresses will be provided and everyone is asked to bring his/her own warm sleeping bags and towels. The food will be supplied for the duration of the work camp and everyone is expected to do his/her fair share of the cooking/cleaning. It would be nice to try new and different dishes, so please remember to bring along recipes from your own countries.

Language: The language of the camp is English.

Terminal: Intl. Airport: Keflavík (KEF), Reykjavík. The closest national airport to the camp site is Egilsstaðir airport which is 40 km away from the project's site. Flights arrive at Keflavik International Airport (KEF), just south of Reykjavik. WF Iceland will offer a minibus trip from Reykjavik to the East for a fair price (150 EUR for the round trip which is almost 1.400 km in total). On the way to the camp we will go through the South to the East of the island. After the camp we will go through the North and west to Reykjavik. This trip includes unique Icelandic sights such as glacial lagoons, waterfalls, volcanic and geothermal areas, glaciers, lava fields, hot-springs, rhyolite mountain ranges, steam-vents, or even icebergs.

Additional Information: There is an extra participation fee of 180,- Euro for this workcamp.

**Description of Workcamp:** WF94 Hveragerði - Health and Environment 10/08 - 24/08 ENVI / MANU

Project Location: Hveragerði is a small town of about 1,700 inhabitants that lies some 45 km east of Reykjavík. This friendly little community sits on top of a highly active geothermal field, which provides heat for hundreds of greenhouses where fruit, flowers and vegetables are produced throughout the year. Even bananas grow in these greenhouses! The name Hveragerði means 'hot springs garden.' Geothermal energy is Hveragerði's lifeblood, and you probably won't find such a natural wonder in the middle of a populated area anywhere else in the world. Nearby you will find an even more geothermally active site: Gufudalur, the lovely 'Steam Valley' behind the town. This whole valley is full of hot springs, geysers, mud pots, fumaroles and steaming vents.

Our host is the Rehabilitation and Health Clinic, which is a part of the Natural Health Association of Iceland. Every year approximately 2,000 patients and other guests enjoy their diverse rehabilitation programs, which are focused on an approach that builds self-confidence and personal responsibility for the patients' own health. The Clinic has earned a solid reputation, both in Iceland and internationally, since its foundation in 1955 for personal and effective care of patients. It is one of the two most important rehabilitation clinics in Iceland. "In the last years this ongoing camp has been the most popular camp in our organization"

Work: The Natural Health Association has a horticultural and environmental department, including forestry, gardening, and greenhouses, which is where Worldwide Friends volunteers work most of the time. The nature of the work depends largely on weather conditions, which can change quickly. The volunteers will also maintain the green areas around the clinic, collect herbs for making tea and participate in other environmental tasks which are needed. Volunteers should bring clothes appropriate for outdoor work, but also clothes for working inside the warm greenhouses. The working hours are usually from 09 am to 15 pm 5 days a week and volunteers will have one hour lunch break.

Leisure: Worldwide Friends volunteers have free access to the local geothermally-heated swimming pools. Traditionally, natural pools have played an important social role in Icelandic culture. Most Icelandic pools offer indoor and outdoor swimming, as well as hot tubs and saunas or steam rooms. Hveragerði is known for having one of the best areas in Iceland for hiking, including a river heated by hot springs.

WF Iceland will also organise reasonably-priced weekend excursions to some of the most popular, beautiful areas and natural wonders that Iceland has to offer. Excursions include unique Icelandic sights such as glacial lagoons, waterfalls, volcanic and geothermal areas, glaciers, geysirs, lava forests, hot-springs, rhyolite

mountain ranges, steam-vents, or even icebergs.

**Accommodation and Food:** Worldwide Friends volunteers stay in a fully equipped bungalow consisting of several double bedrooms and a living room. Volunteers need to bring their own sleeping bag, but beds are provided. Free wireless internet is available, but volunteers need to bring their own laptops if they would like to connect to it.

All meals are provided and cooked by our hosts, the Rehabilitation and Health Clinic. The menu for the project is primarily vegetarian, but two times a week it includes locally-caught fish. The food at the Rehabilitation and Health Clinic is known throughout Iceland for its high quality. The standard of food and accommodation does not get better than in this camp.

**Language:** A basic knowledge of English is required for this workcamp.

**Terminal:** Terminal: Flights arrive at Keflavik International Airport (KEF), just south of Reykjavik, Iceland. WF Iceland will offer a minibus trip from Reykjavik to Hveragerdi for 55 euro which includes the Golden circle south Iceland and bus ride to Reykjavik after the camp.

**Additional Information:** There is an extra participation fee of 180,- Euros for this workcamp.
