Description of Workcamp: CBF03 Montautour

06/07/2015 - 26/07/2015 reno +18

The project

The town of Montautour has a very rich and remarkable built heritage in its city center. It is protected as Historical Monument. Restoration works started a few years ago. Today, there is still one major part of this heritage which needs to be renovated to finalise the global project. In order to help the town in fulfilling this project, the community of communes Vitré Communauté decided to support it by organising an international workcamp. The amount of work to be done is huge. One team has been started the restoration of the wall last year and this year you will continue, and maybe next year also we'll organise one more workcamp! The local partners want to use the workcamp to encourage local youth to move and commit themselves on the project. It will be the opportunity for you to meet the young people of Montautour : they will happily show you their region and their culture.

Works

You will work on traditional masonry. 'Parish close' is a translation of the French term 'enclos paroissial'. It refers to a wall that was built all around a parish church that we found especially in Brittany and date from the 16th and 17th centuries.

Location

Montautour is a lovely town located at around 60 km of Rennes, in a green landscape. It is in the department of Ille-et-Vilaine in Brittany.

Accommodation

You will be accommodated in a non-furnished building. You need to bring an air mattress and a sleeping bag.

Special Requirements

Physical work. :-)

Project: Bordeaux CREPS was founded in 1945 and is located in Talence. It is a public establishment of 15 hectares depending on the department of sports, youth, popular education and associative life. The CREPS welcomes high level athletes in order for them to be able to both train and study, together with some interns aiming to become sports and animation professionals. The environment surrounding the CREPS is quite pleasant. It is located next to schools, universities, close to the center of Talence and only 20 minutes by tram from Bordeaux city center. The CREPS is also close to several parks and green areas. The CREPS and the municipality of Talence decided to work with Concordia because of their common wish to renovate the Roul Chapel and to promote interactions between the CREPS center and the local population.

Work: You will be renovating the Roul Chapel within the CREPS area. It was built by Mr Roul, mayor of Talence and owner of the domain during the 19th century.

Accommodation: You will be staying in collective rooms. The living conditions are basic.

Location: The municipality of Talence is located 3km from Bordeaux.

For nature lover and good walker.

Project: The village of Anzat-Le-Luguet has a certain number of "burons" which today are in ruin. A "buron" is a small stone building, covered by thick-tiles or slate, that can be found on mountains and high-altitude pastures that farmers use in summer to make cheese, such as Saint-Nectaire. The town council would like to restore one of these buildings to demonstrate the lifestyle and the activity of the inhabitants in this part of the Cézallier plateau. This new international work camp will be the opportunity to begin the renovation work of the "buron", in exceptional outdoor surroundings.

Work: Your goal will be to rebuild all of the outer walls of the "buron", up to the lintel of the entrance door. You will rebuild one of the walls from its base, including a protective wall. You will clear away plants from the other walls and pull down the parts of the building that are the most damaged and rebuild them on good foundations. Finally, you will strengthen the ceiling by cleaning off the moss which covers it and by applying a coat of whitewash. In this way you will learn traditional building techniques.

Accommodation: Sleeping in two-person tents and communal living in a marquee, on a site in the village. Bring your own sleeping bag.

Location: Anzat-le-Luguet is situated in the Puy-de-Dôme district, in the Auvergne region. It forms part of the 'Natural regional park of the Auvergne volcanoes', and the protected zone for Saint-Nectaire cheese (« Appellation d'origine contrôlée »). The village is at the heart of the Cézallier volcanic chain, whose highest point is very close: the 'Signal du Luguet' (1,551m).

Special requirements: This workcamp is for those who love nature and the great outdoors. You should be a good walker as the work camp is in an isolated spot.

Language: English.

Meeting point: Massiac SNCF train station.

Terminal: Clermont-Ferrand, Lyon or Paris airport.

Project: The town council of Davayat has been welcoming international workcamps for four years and has been housing them in the leisure centre. Today, the rooms in this building deserve a good lick of paint, which the group of volunteers will be in charge. On the other hand, Concordia has been participating in the renovation of Davayat's former lime-kilns since 2011, working alongside a local organisation called Cynorhodon 135, which was formed in order to fight against the disappearance of the lime-kilns. For the fifth year running, the organisation's volunteers are looking forward to showing you their region. You will share friendly moments around good meals with the inhabitants.

Work: For two weeks you will participate in repainting the walls and ceilings of the leisure centre. During the third week, depending on how much time you have left, you will take part in clearing away weeds on one of the outer walls of the lime kilns and in rebuilding a "chainage d'ange": a protective wall. You will use traditional brick-laying techniques, using local stones and lime mortar.

Accommodation: In two-person tents (bring your own sleeping bag) in the village near the leisure centre. Access to toilets, shower facilities and a kitchen in the leisure centre nearby. When the weather is good you will eat your meals outside and if it rains, meals will be eaten in a room in the town hall.

Location: Davayat is a small town in the Auvergne region situated on the plain of Limagne, at the foot of the volcanic mountains. Situated at around 20 km north of Clermont-Ferrand, it is a wine-producing region which offers many hiking opportunities, canoe/kayak trips and swimming in the lakes. In a welcoming and family-friendly atmosphere, about 30 groups and more than 100 artists will be invited to perform in several places for 3 days (from August 14th to 16th). The program is eclectic and open to the wider public: concert, jam-sessions, musical hiking and workshops. The volunteers will arrive in advance in order to help with the festival organization and also to reinforce the international dimension of this event. The festival will take place in a particularly charming environment (Blesle is one of the most beautiful villages in France), and one of its objectives will be to raise awareness on issues of sustainable development for the visitors.

Work: You will participate in different activities together with a group of other festival volunteers. You will help with the logistics before and after the event: setting up and dismantling the stages. You will be helping with the decoration of the festival as well. You will raise awareness on sustainable development (construction and use of dry toilets). You will also welcome the artists as well as the visitors during the festival and be in charge of two stands "Refreshments" and "Catering".

Accommodation: You will be sleeping on mattresses, on the mezzanine level of the municipal gymnasium in Blesle, which is located in the centre of the town. The group activities will take place in the gymnasium, which is entirely reserved for the group.

Location: Blesle is a village with 600 inhabitants and is located in the Haute-Loire Department (Auvergne region). It is 70km away from Clermont-Ferrand, in a very beautiful valley called Allagnon, with a rich natural and architectural heritage.

Project: Duravel has a very rich 2000 year old history. It was founded by the Romans because of its strategic geographic location between Bordeaux and Lyon. Many remains are still visible today, in spite of the many religious wars that took place here (1596).

The city would like to preserve and restore its rich historical heritage, and more specifically its 160 meters high Middle-Age battlements that protected the city during the 1369 war against England. You will be working on these battlements. It is the 5th consecutive year that Duravel and its local population are warmly welcoming an international workcamp.

Work: You will be supervised by 2 technical leaders, a professional mason and an archeologist.

You will work on the stabilisation of the North battlement of the city: cleaning off the grass elements, dismantling and reassembling the stones, sealing. There will be some traditional masonry work.

Accommodation: You will sleep in the stadium building. You will have access to the showers, bathroom and sports room. You will have access to the rest of the facilities for the meals.

Location: Duravel (1000 inhabitants) is a very touristic place of the south-west of France, in the Lot valley, 40 km west of Cahors. Duravel is located between 2 wooded hills overlooking many wine estates. You will have the opportunity to go on hikes and walks, visit night markets, go on wine tastings in castles or visit some sightseeing (Roc Amadour, St Cyr la Popie etc.).

Special requirements: This camp may have some physical work.

Language: English.

Meeting point: Cahors or Monsempron Libos SNCF train station, then direct bus to Duravel.

Terminal: Toulouse, Bordeaux or Paris airport.

Special remarks: Make sure to bring gloves, working clothes and working shoes. Bring warm and rain clothes, hiking shoes, and a thick sleeping bag (nights may be chilly). Sleeping mats will be lent to you. You will have the opportunity to go

You will organize with the volunteers in order to maintain the facilities that you will be using, to clean and to prepare meals. You will decide together on what to do during your free time or on what to organize for the locals in order to encourage dialogue with the young locals.

Work: You will be doing various works (cleaning, brushing) on the facilities, the little lake, the hiking paths and the fitness trail.

Accommodation: You will stay in tents at the municipal campsite surrounded by trees and next to a lake, 20min from the work place on foot. 2 marquees will be set up for collective time and meals. You will have access to the showers and bathrooms on the campsite.

Location: Coupiac is a very cute little town, part of the "Pays du Roquefort", between Albi and Millau, in the touristy Aveyron department where you will find the famous city of Toulouse, various cathedrals, the Millau Viaduc, Toulouse-Lautrec and Pierre Soulage museums etc.

In the middle of the town, you will be able to visit local museums, a 15th century gothic castle and discover life in the Middle-Age, go to Wednesday morning and Monday night markets, go on hikes etc.

Around the town, you will find many chapels, mills and historic sites.

Urban, indoor accommodation. Motivation letter needed.

Project: You will work with the Emmaüs community in Escalquens, in the Midi-Pyrénées region. The laic movement of solidarity Emmaüs was born in 1949 from a will to help people in need. Under the leadership and example of the Abbé Pierre, the ¿compagnons¿ have been working all around the world in order to help deprived people to find security, dignity, autonomy through work and mutual help. They retrieve all kind of objects (furniture, clothes, household appliances etc.) in order to fix it up and resell or recycle it. The benefits of the sales are used to help people in need and to encourage people to get involved in this solidarity approach. You will work with the compagnons and volunteers in order to take care of the ¿Bric à Brac¿, a place where objects are retrieved, sorted, fixed up, and sold.

You will organize yourself in order to maintain the facilities that you will be use, to clean it and to prepare meals. You will decide together on what to do during your free time and to organize with the locals in order to encourage communication with the young locals.

Work: You will do various work in the ¿Bric à Brac¿: cleaning, organizing, selling etc.

Accommodation: You will stay in tents on the site of Emmaüs Escalquens. You will have access to the bathroom and showers. You will share meals with the compagnons.

Location: Escalquens (6000 inhabitants) is located at the gates of the Laurageais area, between sunflower covered hills and houses. It is in this beautiful setting that you will find a bridge that dates from 1772, a green brick castle from 1568 in the city center and a 14th century church. At the Cousquille crossroads, you will find local shops, many festivities and the Sunday market. During your days off, you can take a bus to Toulouse in less than one hour. Toulouse is famous for its rich heritage, it is a beautiful, innovative, cultural and dynamic student city. In the area, you will get to discover villages, castles and wine estates, together with the UNESCO classified Canal des Deux Mers.

Special requirements: You will need to write a motivation letter in order to apply to this workcamp.

You will live with the ¿compagnons¿. Compagnons may come from difficult background; they are spending a year in the Emmaüs facilities as part of their integrating process. They usually had previous professional or social difficulties, related to their age, health, highly unstable setting.

You will share the same place and therefore the same rules will apply to you in order to all live together. You will work mornings and afternoons (about 6/7h a day), help prepare meals and clean the place. Your days off will be Sunday and Monday. During the day, you will share the companions' life and in the evening or time off, you will be with the other volunteers. External persons are not authorized outside work hours, alcohol is forbidden on the facilities with no exception.

Project: You will be working on the restoration of Bacarisse's church, a building dating back from the 15th century. The church is classified Historical Monument, therefore all the work will be done under the supervision of "Bâtiments de France" architects and over many years. The town of Bacarisse is in the process of creating an association in order to save the church.

You will decide together with the other volunteers on what to do during your free time, on how to maintain the provided facilities, organize the meals but also on what to organize for the locals in order to encourage dialogue with the young locals.

Work: The tower of the church is mainly made out of big blocks of stone facing each-other. You will be working in order to consolidate that part by putting the stones back into place. Then, you will work on the grouts and the coatings.

Accommodation: You will be staying in tents, next to community hall which was recently renovated. There, you will find a kitchen, the bathrooms, toilets and a big room for the common life activities.

Location: Gazax-et-Bacarisse (91 inhabitants) is located 40min from the historical city of Auch, at the heart of the Gascony countryside, in the Gers department. Project: It is the 3rd year of partnership between Concordia, the Sarthe department and the city of Aubigné-Racan. Aubigné-Racan is a lovely city near the Loir's river and it spreads over 3203 hectares with 2112 inhabitants. A very important part of Aubigné's heritage is the Gallo-Roman complex composed of a theater, a temple, thermal facilities and markets built in the second half of the 1st century. This archeological site, property of the Sarthe department, is one of the most beautiful sites of the Pays de la Loire region. This area is very rich in built heritage and natural discoveries.

You will discover archeology through the explanation of an archeologist from the CAPRA (Center of Archeological Prospection and Research of Allonnes) about the Gallo-Roman history of Aubigné and about the wild life. You will take part of the local festivities: 14th of July parade and fireworks, lightening of the old city called "Nuit des Chimères", discovery of the local heritage, hiking.

Work: Like the two previous workcamps, you will be restoring a part of the archeological site: weeding, restoring the low walls using traditional masonry.

Accommodation: You will be staying in a building with two rooms dedicated to sleeping and a kitchen. You will be able to use the bathrooms of the stadium and of the gymnasium.

Cleaning chores and cooking will be done together.

Location: Aubigné-Racan is located 40km south from Le Mans, 15 km west from Château du Loir.

Project: It has been now 5 years since the Normandie-Maine Concordia regional office settled in the popular neighborhood of Le Mans called Les Sablons. The goal of its establishment was the creation of various volunteering projects as part of the social development of the city. Indeed, it would open this neighborhood to an international scale through the creation of a real dynamic in which locals and young locals would get involved. Concordia has been organizing international workcamps for the past 2 years in order to develop local activities for the kids and inhabitants of the neighborhood. Last year´s workcamp was very successful and was the opportunity to organize a beautiful block party at the end of the project. This year, we want to renew the experience by organizing 2 camps during the summer, in close partnership with the educational team and specialized prevention team of Les Sablons and the Youth Service of Le Mans.

Work: The workcamp of July will consist in creating and building temporary spaces with recycled materials which will be used in August: huts in wood, playgrounds, meeting points in wood, You will be in charge of organizing an event at the end of your workcamp. This workcamp will enable the youth of Les Sablons to take part in free activities organized in the heart of their neighborhood and to become aware of intercultural meetings and international commitment. A particular attention will be paid to the participation of the residents, local organisations and the youth in the creation of activities to develop local events.

Accommodation: You will be sharing collective accommodation in 2 flats in the neighborhood, with basic living conditions. There will 4 or 5 people per room with mattresses provided by Concordia. Housework and meals will be done in group. Bring your sleeping-bag with you.

Location: Le Mans (143000 inhabitants) is located in the West of France. It is the administrative center of the Sarthe department, in the Pays de La Loire region (50 min from Paris, and 1h30 from Nantes by train). You will have time to discover the city. Le Mans is a beautiful art and history city, it is the third one of the Pays de la Loire region when it comes to culture and tourism. The old city center is surrounded by Roman walls and the most recent renovation works organized to preserve the oldest parts of Le Mans have helped to enhance its local heritage. Two rivers cross the city which has been named one of France greenest cities. There we can find various parks and gardens, in addition to the two big forests bordering the city. During the summer, many festivals and events are organized, such as "La Nuit des Chimères" which highlights the historical heritage of the

town. At night, the walls of the cathedral and monuments of the old city become projection screens. A must see!

Special requirements: Because it is an urban workcamp, you must provide a motivation letter.

Volunteers should be interested in child/youth animation and come with ideas (original games, outdoor activities, workshops about recycling and materials recovery...).

Project: This will be the 5th workcamp that Concordia organizes with Montfaucon-Montigné.

This town (2 villages grouped together in 2000) is located in the middle of the Mauges region, 20km from Beaupréau and near Cholet. It is a dynamic place full of history where protohistoric and Gallo-Roman remains have been discovered. During the 11th century, Montfaucon has been turned into a fortified castle and a monastery. Today, we can still find moat and feudal mounds (where defensive buildings were built).

Work: You will restore and continue the reconstruction of the former wall using traditional masonry.

Accommodation: Under tents in a soccer stadium. Toilets, kitchen and living room will be provided in the stadium. Please bring a sleeping mat and a sleeping bag.

Location: Montfaucon-Montigné is located 25km north-west from Cholet, 95km south from Angers, 100km from the Atlantic coastline.

Maine-et-Loire region is a fascinating department with 1,200 castles, great ramparts and manors, wonderful banks of the Loire River and numerous vineyards.

You will be able to take part to August festivities: discover the local heritage, go on hikes and share meals and good times with the locals.

Project: Le Moulin de Rotrou is a water mill that dates back from the 16th century, located in the city of Vaas, on the Loir River. Thanks to the local association "Friends of the Mill", visitors can discover the various steps of making bread, a pedagogical process that started in 2011. Quickly after its inauguration in June 2013, the site became a key element in the touristic development of the city. Many renewable energies related events are organized there, such as the "Fête des Céréales" and the organic market, therefore developing a new attractive side related to the heritage of the Loir valley area. The association is more than 25 years old and the mill project brought a new vitality to it, mainly thanks to the intergenerational exchanges, the involvement of the volunteer and the great dynamism of the current facilitator. The Friends of the Mill association has been linked to the Jinov network for more than a year. Jinov aims at promoting youth initiatives and intergenerational cooperation with the purpose of the implementation of a youth center in the Mill.

Concordia has been organizing international workcamps in the Sarthe department for many years, and it is thanks to this involvement that a youth exchange will take place in Vaas in July and an international workcamp in August. Therefore, international volunteers and local youth will get to communicate and work together, animating the local community and strengthening the attractiveness of the territory. The workcamp will allow the area to be more outward looking, through the valorization of the local heritage and the preservation of the Mill.

Work: You will take part in the renovation of the walls inside the Mill: clear it off undergrowth, masonry work, repair the joints of the bricks by using traditional techniques (e.g. lime mortar).

Accommodation: You will be staying in a collective accommodation under tents in a municipal campsite with the toilets and bathroom in a building. The meals will be taken in a room in the mill with the volunteers of the organization. Cleaning and cooking tasks will be done together. Don't forget to bring a sleeping-mat, a sleeping bag (and a tent if you own one!).

Project: This is the 6th workcamp organized in the town of Thiers sur Thève, located at the edge of Chantilly's and Ermenonville's forests. Thiers sur Thève is a calm and rural town and this workcamp is a great opportunity for the town to enhance its heritage through the work that will be performed on its old church. Therefore, the inhabitants are really looking forward to welcoming the international volunteers!

Work: You will be working on the outside walls of the church: cutting stones, jointing. All tasks will be done on scaffolding.

Accommodation: You will choose either to stay in tents with a sleeping bag or in a building on camp beds. The kitchen and bathrooms will be available in a common building where you will find all amenities (oven, dishwasher etc.).

Location: Thiers sur Thève is located in the Regional Natural Park "Oise Pays de France", near the Val d'Oise department and the city of Senlis. You will be in the middle of Chantilly's forest, near its renowned castle and horses facilities.

Special requirements: You will be working on scaffolding. It is better to not have vertigo to be able to participate.

Language: English.

Meeting Point: Orry la Ville SNCF train station.

Terminal: Paris airport.

Special remarks: If you decide to stay in a tent, remember to bring a sleeping bag. Bring work clothes and shoes.

Project: Machemont is a little town from the north-east of the Oise department, in the Noyon area that used to be filled with stone quarries. This is the 4th year that Marchemont and Concordia are working together. After two successful workcamps organized on the quarries, Concordia is working directly with the city hall for the 2015 edition. Machemont was particularly damaged during the First World War and it was rebuilt following the 1920s masonry techniques. Today, the church needs to be renovated and particularly its interior. Your work will be part of a bigger event organized around the centenary celebrations of WWI.

Work: Following last year's work, you will be doing some basic masonry inside of the church.

Accommodation: You will be staying in tents on the local soccer field. You will have access to a building for the common life activities as well as the bathroom and kitchen facilities. Bring your own sleeping bag!

Location: Machemont is in the north-east of Oise, between Compiègne and Noyon.

Special remarks: You can bring your bikes and music instruments.

Project: La Motte-Servolex has welcomed workcamps for 14 years, for the greater enjoyment of its technical department and inhabitants, as it became an annual ritual they are waiting for. More and more local youngsters participate in the project every year. Our partner usually offers a two-sided project: one aspect is purely technical but they always try to give the project an artistic or cultural aspect as well.

Work: The technical part will consist of the renovation of "la Place de la Lecture", a public park where tourists and inhabitants come to watch shows or events. You will work to restore the rows of seats with stones and mortar, using traditional techniques.

On the other side, you will meet a local artist in order to create or renovate street art. It is foreseen but not yet confirmed that you could work on a bronze statue.

Accommodation: You will be sleeping under tents, in front of the local soccer stadium. Bring your own sleeping bag. There are built facilities right next to it with kitchen, bathroom, collective room and everything needed.

Location: La Motte-Servolex is touching the city of Chambéry, one of the biggest cities of the Savoie department. It is located 100 km away from Lyon, 90 km from Geneva (Switzerland) and 200 km from Aosta (Italy).

Project: Saint-Victor-sur-Rhins is a village with a population of 1160 people in the Loire department, in the North of Lyon. This village has started a new partnership with Concordia in order to preserve and restore its cultural and built heritage. Saint-Victor-sur-Rhins has been inhabited for more than 1000 years. The workcamp aims at raising awareness among young people regarding the cultural heritage of their town.

Work: This year, you are going to work on the maintenance of a tile stove, which was built around the 17th century, and that has kept the name of its first user: the "Cabin stove". The roof structure of the building must be rebuilt identically because it presents some problems regarding the waterproofing system. Over time, the frost and thaw in the winter can damage the masonry of the stove. You will learn how to dismantle and rebuild an old-style roof structure.

Accommodation: The volunteers will sleep in tents in front of the football stadium. The kitchen, the toilets, the showers and the space for group activities will be in the stadium facilities, which will also offer shelter in case of bad weather.

Project: Sainte-Agnès is a mountain village made up of ten hamlets, which are spread over the slopes of the mountain. It is an ideal place for nature lovers and hikers. 2015 will mark the 20th anniversary of our partnership with this village, with the same happiness every year! Indeed, the local inhabitants are waiting for the workcamp as the main event of the summer, a moment rich of intercultural encounters.

Work: You will work on the biggest public house of the village, which was built the traditional way more than a hundred years ago. The aim will be to restore outside walls coating, using limestone, and making the old stone appear. This year the aim will be to restore one wall out of the four, as this workcamp should be renewed in the coming years in order to come to a full rehabilitation of the house.

Accommodation: You will sleep in two or three people tents (please bring your sleeping bag and mat). Kitchen, toilets, showers, and a big meeting room can be found inside the building.

Location: Sainte-Agnès itself is quite isolated in the mountain, but a very big city (Grenoble) is 15 km away, and can be reached easily. It is situated 100 km away from Lyon.

Project: Vaux-en-Bugey is a village of 1100 inhabitants with a very rich cultural and built heritage. Indeed this territory has been inhabited for more than 2500 years! Many workcamps took place over the last ten years, so you will walk into the paths of many previous volunteers who helped this village to maintain its historical richness. But it is not all about history, as this year you will work on a newer facility, which is used mainly by youngsters and hikers.

Work: The main work will concern the "laboratory", which was used by scientists working on gas extracted locally, many decades ago. However, in the last years, the place has been mainly used as a room dedicated to welcome hikers and hunters during their lunch break. The place was recently vandalized and needs to be restored. You will therefore have to work with different materials such as paint, glass and wood to renovate the inside as well as the outside parts. But there will probably be enough time to go and work in other places as well, so the work should be really varied.

Accommodation: You will sleep in the village center, in a house which was given to the city by a famous artist. Kitchen, bathroom and everything needed will be there. You should bring a sleeping bag. You may use the bread oven that was built by previous volunteers.

Project: Fort du Mont is an old military fort, built in 1881 and maintained by three surrounding cities: Albertville, Tours-en-Savoie and Venthon. This fort is located 1100 m above sea level on a mountain, above Albertville, the city that welcomed the 1992 Winter Olympic Games. Nowadays the fort is of no military use, but it became a part of the built heritage and it is a point of interest for tourists. However, due to a lack of maintenance, some of its parts are not shown to tourists. This project enables the local youth to be aware of this heritage as they will come to visit the site during the workcamp.

Work: Continuing the work that was started last year, this second workcamp will enable you to restore a "caponniere" (a room that allows the soldiers inside the building to shoot enemies outside, while staying protected) by applying a new lime mortar, with a traditional technique. You will also have to restore a brick vault at the entrance of this room.

Accommodation: You will sleep in two or three people tents (please bring your sleeping bag and mat). Kitchen, toilets, showers, and a big meeting room can be found inside the building.

Location: The fort itself is very isolated, as it takes around 20 minutes by car to get to the closest city (Albertville). However it will be possible and necessary to go to the city very often, so the city will lend a minibus to the group.

The fort is located 150 km away from Lyon and 130 km from Geneva. The city of Annecy and its famous lake are closer and can be reached within 45 minutes. You will therefore have opportunities to go for a swim and walk around one of France's most beautiful lakes.

Project: Saint-Cyr-de-Favières is a village of 800 inhabitants located near the city of Roanne, proud of its rich history and built heritage. The project aims at giving life back to a wash house that was built a hundred years ago. The city still has all the documents and plans used for its original construction and wants it to be restored the traditional way so that hikers and tourists can take a break in the shade of a typical building (the wash house is located on a hiking path). Last year, the volunteers removed some ground, cleaned the place and tidied the stones so that it can be totally rebuilt this year, over two workcamps. With the July session, it is planned that the walls should be finished. This last session aims at finishing the wash house's reconstruction, working mainly on the roof.

Work: The wash house is still in ruins and almost everything needs to be built again. This workcamp will focus on the main walls. According to the work achieved by the volunteers in July, you may learn how to build a wall with stones and mortar (how to make a mortar with cement and sand, to put stone adequately, to let it dry, to get a good fit and finish...). But your main work will consist of carpentry and woodwork: how to cut precisely and assemble the roof wooden structure. There will be work a few meters above the ground.

Accommodation: Sleeping under tents nearby the soccer stadium. Bring your own sleeping bag and mat. Kitchen, bathroom and everything needed will be in the built stadium facilities.

Location: Saint-Cyr-de-Favieres is located 10 km away from Roanne and 80 km away from Lyon.

Project: Villevieille is a city in the South of France, with a rich heritage covering a very long period of time (Copper age, Gallo-Roman and medieval periods etc.) and a lot of Historic buildings (castles of Pondres, Prehistoric village of Fontbuisse etc.). An archaeological campaign led between 1998 and 2005 helped the renovation of a residential part of the Gallo-Roman urban area of Villevieille, going back from the 1st century BC. During this 5th partnership between the Pays de Sommières and Concordia, you will develop the site of "Terriers" in the continuity of the work completed the previous years. The aim is to restore the foundations of this villa by building a low stone wall, so that the visitors can see what existed at the time.

Work: According to specifications defined in advance, you will build a low wall which will delimit the foundations of the villa. You will be using stone and make lime mortar.

Accommodation: You will be staying in a collective accommodation that includes an equipped kitchen, a big dormitory (girls and boys separated) and two showers.

Location: Villevieille is located in the Gard department, in the Languedoc-Roussillon region, between Nimes (Roman city) and Montpellier (student city). You will therefore get to witness the wonderful historical heritage of this area (Castle of Villevieille and Pondres, Gard Bridge, Arena of Nimes).

Project:

The village of Lieuran-Cabrières is located in the middle of the Herault valley and this particular setting will most definitely charm you. The commune is made of a principal borough and a hamlet called the Mas de Roujou located in banks of a small river, Dourbie. You will have the opportunity to discover the beauty of various sites near this place such as the lake of Salagou, the dolomitic circus of Mourèze, the old royal manufacture of Villeneuve (where a Festival is organized each year showing street theater and concerts) and at less than 20 km the city of Pézenas, jewel of the Renaissance period. The objective of the workcamp is to repair the dry stone retaining walls, of which certain parts were damaged by the recent bad weather.

Work:

The retaining wall giving access to the various terraces has partially collapsed. You will take off stones from broken parts, remove the fragile parts on each side of the breaches of construction then rebuild the wall in order to support the path above.

Accommodation:

You will be staying in tents in a campsite. If you have one of them, you can bring it.

WORK: The work will consist into helping the community in the everyday tasks such as: sorting out 2nd hand cloths, sorting out 2nd hand furniture or materials or books helping into collecting the 2nd hand things in the people house (only strong volunteers can do that), selling the books/cloths/furniture to the public, tidying up the different little "shops" in the community finally any mission useful for the well being of the community. Most of the companions have had hard times and harsh experiences. They are often tough people in appearance, who won't talk much at first. Volunteers should be mature, and aware of the difficulty of establishing communication with the companions and of gaining their confidence It is important to keep in mind that it is a social project, so that volunteers have to adapt their timetable to the one of the companions. Volunteers will have to be really motivated because it is a difficult work : they will work from Tuesday to Saturday from 7:30 am till 5:00 pm. Sunday and Mondays are free. Please note that although the project is close to Paris, you will have a limited time to visit the city, due to long working hours which cannot be bargained. If you do not agree with these conditions please do not apply. As extra activity, you will create an exhibition on the topic of tolerance, together with the companions. Your creative talents will be needed!

ACCOMODATION: To facilitate communication and integration, volunteers will take all their meals with the companions at the restaurant of the community. Volunteers will be hosted in basic conditions : they will sleep in a prefabricated building and share the shower and the toilets of the companions. The consumption of drugs and alcohol is strictly forbidden

WORK: The work will consist into helping the community in the everyday tasks such as: sorting out 2nd hand cloths, sorting out 2nd hand furniture or materials or books; helping into collecting the 2nd hand things in the people house (only strong volunteers can do that), selling the books/cloths/furniture to the public, tidying up the different little ¿shops¿ in the community; finally any mission useful for the well being of the community. Most of the companions have had hard times and harsh experiences. They are often tough people in appearance, who won't talk much at first. Volunteers should be mature, and aware of the difficulty of establishing communication with the companions and of gaining their confidence. It is important to keep in mind that it is a social project, so that volunteers have to adapt their timetable to the one of the companions. Volunteers will have to be really motivated because it is a difficult work : they will work from Tuesday to Saturday from 7:30 am till 5:00 pm. Sunday and Mondays are free. Please note that although the project is close to Paris, you will have a limited time to visit the city, due to long working hours which cannot be bargained. If you do not agree with these conditions please do not apply. As extra activity, you will create an exhibition on the topic of tolerance, together with the companions. Your creative talents will be needed!

ACCOMODATION: To facilitate communication and integration, volunteers will take all their meals with the companions at the restaurant of the community. Volunteers will be hosted in basic conditions : they will sleep in a prefabricated building and share the shower and the toilets of the companions. The consumption of drugs and alcohol is strictly forbidden

WORK: "The Salt Road" is a 27km route in the heart of the Vanoise National Park which connects the municipalities of Pralognan and Termignon. For five centuries, this lane was used as a passage for transporting salt on mules, from Tarentaise to Maurienne and to the Italian Piedmont. It's on one part of this emblematic road, a few kilometers from the heart of the village of Termignon where you will intervene. Led by passionate professionals of the association "The murailleurs of Provence" who desire to transmit their knowledge, you will participate in the repair of dry stone walls along the way and in the construction of a calade (a pavement of cobblestones). Work 5 hours per day, 5 days per week. Remember to bring sturdy shoes and closed for work! Physical work but beautiful environment!! To discover the "Salt Road", you can watch this video (in French) performed by the Vanoise National Park: <https://www.youtube.com/watch?v=mdxqSFXZIEY>

WORK: Volonne is dominated by the well preserved vestiges of two medieval towers, visual symbols of the village; from there the panorama over the Durance valley is exceptional. Access to the towers is only possible through a steep and rather dangerous path that the town decided to reconstruct with your help. Ledged by a professional worker from the town, you will perform following tasks: clearing up, leveling, building barriers and benches out of wood, carving stairs in the stones, small masonry work.. Be aware, the work will be simple and varied but quite physical and requires a true motivation! You will work 6 hours a day, 5 days a week. Please don't forget to bring strong shoes for the work! You will also assist in the organization of two celebration events in the town, the Napoleonic fest and the medieval fest : installation of furniture, lighting equipment and sound, storage and cleaning after the party ...

ACCOMODATION: The volunteers' team will be hosted at the municipal school; mattresses will be installed on the floor of a class room for sleeping. A kitchen is at disposal in the school for preparing the meals. Bathrooms will be in the Dojo building, in front of the school. Jeunesse et Reconstruction will provide you with ground mattresses; please don't forget to bring your sleeping bag. Meals will be prepared by volunteers for the whole group. Like every other volunteer you will participate in the daily tasks and the group organization: cooking, washing dishes, cleaning, planning free time activities, buying food. Please note that the organizers of the camp cannot take care of you if you arrive before the starting date of the camp.

WORK: Your group will be divided every day in 2 teams, in order to make some work on two different sites in the same time. Led by local volunteers, the teams will change every day, so that each volunteer can participate in every type of work. In Saint-Didier, by Le Mont la Roche, you will do some masonry work to renovate a wall, after the ancient "dry stone" technique; you will also help to clear up the paths. In Limonest you will work on the "Batterie des carrières" (old military battery): you may also rebuild a wall and perform some construction work on the access paths. In Dardilly your workplace will be the 19th military fort, where you will participate in some cleaning and painting work. Be aware, working on these projects may be physical and quite hard! Work around 5 hours a day, 5 days a week. Please think of bringing some strong shoes for the work!

ACCOMODATION: You will be accommodated in the town of Dardilly, inside the fort. Tents will be installed in the yard of the fort. Showers, kitchen and WC available in the fort building. Tents and mattresses will be provided by Jeunesse et Reconstruction, please bring your own sleeping bag! Every volunteer will participate in the household chores and the preparation of the meals. Partner

Collective creation and friendliness will be the basis of this second camp in Rocles, small southern Ardèche village! After a memorable workcamp last summer, the inhabitants and their representatives wish to host a new international volunteers' team to help constructing the path that was started last year and to celebrate intercultural connections! Rocles is situated in the heart of Ardèche mountains, at 450m high, and counts around 250 inhabitants; in summer tourists and vacationers who are looking for calm and wild nature activities also settle there. Organized in partnership with the municipality and some youngsters from the village, this second workcamp in Rocles will be very much orientated towards connecting with local people and working together. More info about Rocles: <http://www.mairie-rocles-07.fr/public/> More info about Jeunesse et Reconstruction: www.voluntariat.org

Work

Environmental and artistic camp! Initiated by a youngsters' organization from the village called "Les bosseurs du 508", the project aims at refurbishing a community ground for creating a convivial area for leisure and sports activities. The international and participative workcamp last summer has already allowed the transformation of an abandoned sports ground into an open space for diverse activities and the creation of a "cultural and sports trail" that will eventually connect Rocles to the neighbor village of Joannas. With a team of highly motivated local people, you will participate in continuing the set up of this pedestrian artistic and sporting area: clearing work, gardening, making wooden furniture, and building of a stone amphitheater. This project will require all your creativity and artistic sense: the volunteers will be involved in the decisions regarding the design of the area and will participate occasionally in land art and other creative workshops. You will work 4 to 5 hours every morning. For more information about last year's work project, join the fan page: <https://www.facebook.com/pages/Rocles-Workcamp/307715156052909?fref=ts> And for pictures: see <http://babyloncry.com/lescolles/#/chantier-2014/> and click on Menu

Accommodation and food

Lodging conditions will be rather basic and help reinforcing group dynamic! You shall participate in the first days in building your own living space: set up of an open air kitchen, constructing compost toilet and a solar shower installation, putting up tents for sleeping. A communal building will be available for your group in case of bad weather and for the 1st days. Tents and mattresses will be provided by the organizers, please don't forget to bring your own sleeping bag! Meals will be prepared together and shared with the whole group, and you are expected to

contribute to everyday tasks (cooking, washing up, cleaning, emptying garbage). In order to enable more exchanges, the local volunteers will eat lunch with the international team. To be noted: 1) NO public WIFI in the village! 2) we cannot take care of you if you arrive before the work camp starting date, neither beyond the end date.

Location & leisure

Rocles is a small village in the Ardèche mountain, quite isolated but very welcoming! Located 30 km away from the next town, Aubenas, Rocles has only two shops: a bakery and a restaurant. The inhabitants, especially the youngsters, will be ready to show you around. Possible leisure activities: hiking, horse riding, diner at locals, meeting with volunteers from other workcamps, swimming at the river, local traditional celebrations, canoe. You will participate in organizing a big celebration evening for the village, with the local volunteers and elected members; please do not forget to bring specialties and traditional recipes from your country, as well as pictures, music to share about your culture!

Requirements

1/ No special knowledge or competence is required for this camp, except being motivated, curious towards the others and loving work in group! Volunteers who like to go hiking are very welcome!

2 / Our association does not provide a car during the workcamp.

3 / At the end of the workcamp, no transportation will be organized by our association (your group will organize diverse transportation with the locals). You will then have to arrange your own means of transport to return to the train station and plan it during the camp with the team leader and the inhabitants.

4/ More info about trains: http://www.voyages-sncf.com/?rfr=PropositionAller_header_ACCUEIL

5/ European volunteers should bring their European health care card, and everybody must, in any case, **BRING THEIR INSURANCE CERTIFICATE**.

If health issues on the camp, the volunteers will have to pay for it, and then get reimbursed once back in the home country.

6/Do not forget to bring: a sleeping bag, warm clothes (socks, sweaters and rain-coat), shoes for hiking, a bathing suit. For male volunteers: short pants are generally prohibited in the public swimming pools in France, please bring a bathing suit. For work: worn out and protective clothes and strong shoes. + Your games, songbooks, cassettes, musical instruments and recipes, will be also welcome! Description of Workcamp: SJ12 COLY 04/07/15 - 24/07/15 RENO 12 vols 18+

Project: This project was originally put in place by the association of Solidarités Jeunesses (Aquitaine) and the commune of Coly, which is situated in a chain of hills, with varying altitudes, forming a considerable mountain range surrounded by the left bank of the Vézère and by the right bank of the Coly. This commune extends to several other communes, including Terrasson and Condat-sur-Vézère. It is located approximately 20 km from Sarlat, near to Lascaux, and 4 km from the magnificent 12th century abbey of Saint-Amand de Coly, considered the most beautiful fortified church of Périgord.

Work: You will work to restore the ruins of the castle of the abbot of Coly. You will clear the ground to find the original stairs, re-sort the stones to restore the stairs and build a retaining wall.

Surrounded by ruins, it will be necessary to raise the nearby walls and those of the bread oven itself.

Finally, the restoration of this bread oven will allow the annual celebration of the « Fête du pain » (bread holiday) by the locals.

Leisure activities: during free time, you will be able to explore the numerous hiking paths and many different leisure activities of the region. This workcamp will take place during the highly animated summertime season. Every Tuesday evening, you will be able to go to the « Marché des producteurs » (farmers' market) at Saint- Amand de Coly, 3,6 km from the workcamp site. This night market provides an intercultural experience focused on local artisans, games, cooking, and many other things. You will also be able to enjoy activities on the river (canoeing, swimming, etc).

Accommodation: camping tents.

Project: The city of Saint-Yorre is known for its natural springs. The city has recently bought the park of Larbaud where one of these spring flows. Local authorities invite international volunteers to help them to renovate this park in order to enhance this park for local populations and transform it as a nice place to stroll in.

Work: During the workcamp, you will work at the environmental clearing of the park (clearing weeds for instance) around the lac of the park and around the canals banks. Your job will also consist in restoring some constructions: walls and bridges.

Each year a celebration is organised in order to give a chance to local inhabitants to meet the international volunteers who contributed to the restoration of the park, if you want you can participate in the organisation of this event.

Leisure: This project allows you to discover the region (Vichy, Moulins); to visit sightseeing places and to meet local populations and the local youth. Of course, you will be invited at local festivities.

Project: after the successful hosting of an international workcamp in 2006, the community of Puyravault has anew asked the association Solidarités Jeunesses to invite international volunteers. This community, close to the marsh Marais Poitevin, fondly remembers the enriching experiences of the 2006 workcamp. In an effort to revive this exciting dynamic in its community, the municipality hopes the organization of the workcamp will allow locals and workcamp participants alike to invest themselves in this project and to thus be able to exchange and form connections.

Work: you will take part in the restoration of a wall of the village church. Techniques of traditional masonry will be taught to you in the process of removing and replacing the chalk mortar joints between the wall stones. A technical leader will be with you during the work times, introducing you to techniques passed through the generations. You will paint and refurbish the local community hall and other outdoor features.

Leisure activities: You will enjoy local summer events offered by the community. You will also have the opportunity to discover the region, the Marais Poitevin, sightsee in La Rochelle, swim in the Atlantic ocean, but above all to get to know and share time with the local population.

Project: At the foot of the Massif du Dévoluy, in the Hautes-Alpes, stand the remains of the castle of Lesdiguières, at the entrance of a hamlet of the same name, in the district of Glaizil. This castle was built in the 16th century by François de Bonne, the future duke of Lesdiguières and the last constable of France. Only the ruins of the old chapel, the towers, and broken down sections of the walls can be found at the site of this once-grand castle, ranked as a French national historic monument. The general council of the owners of the site, and the association of Lesdiguières, have decided to preserve this element of local history and to bring it back to life. It is with this effort in mind that, since 2010, a dynamic partnership has formed with Les Villages des Jeunes to organize an international youth workcamp each year.

Work: In 2013, a field program focused on repairing a section of the surrounding wall took place. Since last year, we work with the improvements of the walls of the old stables. These improvements will take place under the supervision of an archaeological overseer and will give you the opportunity to discover techniques of traditional masonry. Please be aware that the work may be physical as you sometimes have to carry big stones!

Leisure activities: You will be able to organize hikes, swimming trips, sports and games, and sightseeing tours in the surrounding areas. During your free time, you will also be able to organize events with locals such as international meals, joint workcamp days, parties, festivities,

Projet : This project was originally put in place by the association of Solidarités Jeunesses (Aquitaine) and the commune of Lalinde. An old fortified town (12th century) which today includes some 3000 inhabitants. Lalinde is located south of the department of Dordogne, in Périgord pourpre, and is characterized by its canals (19th century) which runs alongside the rivers of the Dordogne from east to west.

Work : you will work to restore the basin of the canal, located in the heart of the village. This will include the renovation of the stones surrounding the basin. The goal is to carry out a masonry project, cutting and cleaning the stones.

Leisure activities : during free time, you will be able to walk along the Lalinde canal, and explore the various hiking paths and the magnificent countryside of the Dordogne. This workcamp will take place during the highly animated summertime season. From the 20th to the 21st of July, you will attend the traditional music festival, known as the « tradigordines ». You will also be able to take advantage of the Dordogne river (canoeing, swimming, etc) and outdoor activities provided by the municipal campground (pool, mountain biking...). Numerous cultural sites (castles, Roman churches, etc) in the surrounding area and a contemporary art exhibit, with its artists collective, on the campground, may also satisfy your cultural curiosity.

Accommodation : campground tents, along the shores of the Dordogne.

Project : Septfonds, named after its seven sources, has hosted Citrus for three years. This year marks the beginning of a new international workcamp, designed to maintain the strong link between the association and the village and to maintain local tourist attractions. Located in the department of Tarn-et-Garonne, famous for its stones construction and straw handicrafts, Septfonds has a rich and complex local heritage, shaped by the hands and the memory of local men and women. In the 19th Century it was the birthplace of the straw hat, the invention and manufacture of which invention caused the city to flourish. The Second World War also left a mark on the village, with the thousands of Spanish, Polish and Jewish people deported to its detention camp. The whole village, as well as its memorials, have been built with Septfonds stone, extracted during the war from dozens of quarries. In 2014, strong bonds of friendship were created between the international volunteers, the technical leaders and the locals.

Work : This year work will mainly concern these stones, which are the remaining witnesses of Septfonds' history. The group will continue the work started last year by focusing on the quarrier path (clearing brushwood, building up the path) and the restoration of many dry-stone walls. Thanks to this work, those elements will become part of a historical tourist trail. You will be welcomed by a municipal employee, and by volunteers of an association specialized in the building of dry-stone walls.

Leisure activities : Beside the working time, volunteers may explore the many attractions Septfonds has to offer (dolmens, chapel, commemoration places, ancient straw hat factories). They will enjoy meeting the welcoming locals and associations. They will have the opportunity to wander through the streets of beautiful medieval villages such as Saint-Antonin-Noble-Val, Bruniquel, Penne or to visit Montauban, home town of the great neo-classical painter Ingres. In this wonderful region, canoeing, hiking or bathing in rivers will be included in possible free-time activities.

Accommodation : at the stadium premises, with all available facilities.

Location : Septfonds is located 90 km North-East of Toulouse, between Montauban and Cahors

Project: Since 1960, Neige et Merveilles association has been taking over and renovating the old buildings of Vallauria Mining Works, creating an accommodation and learning center there. After decades of working alongside the old mining site as well as the various specialists operating on the site (geologists, mineralogists, archaeologists, speleologists), the association turned its thoughts from 2009 onwards on how to enhance and capitalize on this heritage. The first step in this exercise was to carry out an inventory of the old mines and the site in its present-day context. The mining heritage of Vallauria is characterized by spectacular ancient underground mining works. The Vallauria Mining Works embodies a desire to develop activities, within the framework of a local sustainable development project, opening the site to a large public.

Work: making the mine safer by consolidating and cleaning the ground in the heart of the mine and its main tunnels. This work uses traditional construction techniques as dry stone (retaining walls, stairs). Part of the work is also to evacuate rubble using wheelbarrows along wooden duckboards. You will be supervised by a heritage restoration professional.

Leisure activities: a learning facilitator will accompany the group throughout the stay, encouraging young people to become part of a cultural dynamic, by giving them a chance to discover the findings of research carried out on the geological and mining heritage of Vallauria. Our aim is also to draw young people into a program of discovery activities, encourage all kind of initiatives and incite them to take part in sportive and cultural activities opening up opportunities for discovery, share experiences and exchange for each of them.

We can offer them the kind of things they are looking for: discovering the region's historical and cultural heritage (national park and Vallée des Merveilles [¿valley of wonders¿], medieval villages), formal and informal encounters with people working in the mountains (shepherds, guides), participation in local cultural festivals, taking part in high-adrenaline sports activities (via-ferrata, assisted climbing routes, canyoning).

Description of Workcamp: SJ58 CLAUSONNE ABBEY 5
03/08/15 - 29/08/15 RENO 12 Vols 18+

Project: The Clausonne abbey is situated in the Saix, a small village in the canton of Veynes in the Hautes-Alpes. Today, only the remnants of this 12th century building are found as the abbey was destroyed, burnt, rebuilt and finally used as a farm and school in the 19th century. Clausonne remains however a remarkable site, sharing the beauty of the wildness that surrounds it : situated at 1200m of altitude, in the heart of a vast « circus » of mountains, the abbey became the route point for numerous hikers that visit the Haute vallée of Maraize. Thus, rather than letting the vegetation once again cover the ruins of Clausonne, the inhabitants of Saix founded an association 20 years ago in order to highlight this site. Progressively, thanks to numerous international workcamps that have worked there, this place lives again and is currently open from April to October. The workcamps organised at the Clausonne site are received by the hosting centre of the Fai farm, not far from there. The Fai is an extraordinary place, there you will find young people in difficulty, employees in training, professional artists or long term volunteers. We hope during your stay at the Fai that you will bring your willingness and good humour to bring the spirit of encounter to life and to work together to animate this place.

Work: The work will be held in order to improve land use around the site. You will continue the path calade: site preparation (sorting stones, levelling, layout of the foundation), construction of retaining walls and realization of the pavement. This work will allow you to discover the traditional masonry and the conservation of historic monuments.

Leisure: Situated in a remarkable natural environment, Clausonne is an exceptional place to discover the pleasures of mountain hiking and life in a rural area, with its local markets and producers. In the evenings at the Ferme du Fai, you will be able to organise games, international meals and project movies. During the workcamp, touristic outings to discover the towns and villages of the region may also be organised and you will participate in the music festival.

Description of Workcamp: SJ63 HIKING PATHS AND RIVERS IN THE BOCAGE SUD 08/08/15 - 29/08/15
 RENO 12 vols 18+

Project: The region Bocage Sud, 25km from Moulins, proposes for several years an itinerant workcamp which gives an opportunity for volunteers to explore the region and meet local people, always eager to meet people like you!. There will be mutual exchange between the volunteers and the local population. Two itinerant workcamps will be organised for four different communities. The communities of Châtel-de-Neuvre and Cressanges are waiting for you with open arms and are wishing to share good moments with you, and help you to explore their villages.

Work: Concerning Cressange, you will start your project with the observation of the needs of renovation at the chosen hiking paths (orientation, use of the maps). Then, you will work on the necessary works in order to improve the sign system: reparation of the signs that already exist (carpentry, paint, cut the plants to clean the path) and installation of new signs (engraving, paint, fixing). And then, at Châtel-de-Neuvre where you will work on the church park renovating a stone wall (cleaning and fixing the stones).. and clearing the local river banks.

Leisure time: This workcamp will be the opportunity to meet young people of the region and discover the lifestyle of the countryside, and also to visit touristic sites. A mini-bus will be provided for your trips.

Accommodation: in local primary school in Cressanges, and then in an apartment at the heart of the village of Châtel-de-Neuvre.

Location: Cressanges and Châtel-de-Neuvre (Allier), 25km from Moulins sur Allier

Description of Workcamp: SJ66 FESTI'VAL FRAICHEUR OF TORCY 11/08/15-01/09/15 RENO/CULT
15 vols 18+

Project: This summer the town of Torcy is hosting the fourth edition of the 'Festi'Val Fraïcheur', an urban-culture festival, organised by local youth associations, which showcases performances of music, graffiti and break dancing. The aim of this festival is to promote the expression of cultural diversity, to create links between different generations of people and to encourage young people to engage with their community.

Work: As a volunteer in this camp you will work with local young volunteers from various partner organisations to help to prepare the park where the festival takes place. You will work in order to make the venue accessible and safe to all, as well as attractive. You will also help to promote the festival in the local community and act as stewards for the public during the festival itself. After the event, you will help to clear the site of the festival and celebrate the end of the project with the local partners!

Leisure Activities: You will have the opportunity to meet many other young people from the community of Torcy and its surrounding areas. You will also be able to arrange other activities according to the opportunities and the available budget.

Accommodation: You will sleep on mattresses in a local gymnasium.

Location: Torcy, approximately 30km east of Paris.

Closest Train Station: Torcy RER

Note: This project should not be seen as a sightseeing trip to Paris. If participants wish to visit Paris, they should arrive some days before or leave some days after the dates of the summer camp.
