Saharawi (desert people) lives in refugee camps in the southwest of Algeria. The Sahrawi refugees have survived the great exodus from the Western Sahara: endless marches in the desert in 1975. Rio de Oro was established in 2000 and helps Saharawi people with handicap problems directly in Algeria and in Italy. The main activities of Rio de Oro are: child sponsorship, support to the schools of special education, health care in refugee camps, summer camps and health care in Italy for disabled children (6-14 years old). Website: <http://www.riodeoro.it/>

### Work:

The international volunteers will be helping the staff and numerous national volunteers work with Saharawi children (6-14 years old) with different kinds of disabilities (physical, cognitive, mental, sensory, emotional, developmental). This means that most of the kids are not self-sufficient. Make and participate to activities for the children (collective games, didactic activities...), feeding them (breakfast, lunch, dinner, snacks), getting them dressed, changing the diapers, showers, house care (cleaning, cooking ...). But also we need volunteers to come with a lot of energy to play, push wheelchair, go to the beach with the children. The shifts during the day and also night will be very flexible (to be arranged with the camplader and with local volunteers), so flexibility and adaptability are strongly required. English, Spanish and Italian will be the main languages of the workcamp but any language skill is welcome! Along with English, the main spoken languages usually are: Italian (most of our volunteers are local), Spanish (Western Sahara used to be a Spanish colony before the Moroccan occupation; the leaders that come with the kids are fluent Spanish speakers) and, of course, Hassaniya, the arabic dialect the kids speak. Nevertheless, don't worry, you will manage to understand the kids, some of them speak Italian or understand Spanish and there will be a lot of interprets to help!

### Accomodation and food:

The international volunteers will be hosted at the primary school in the city centre along with the national volunteers and the children. The school is equipped with: 5 shared bedrooms that will be appropriately separated for girls and boys, and the kids; bathrooms and a shower for each bedroom common bathrooms; dining room; kitchen; common areas: two halls for activities; gardens with games around the building; rooms for the children physical therapy. Breakfast, lunch and dinner are provided at the canteen by the hosting organization.

The Park territory is outstanding for the great wealth and variety of flora (1000 species recorded up to now) and fauna, which includes elements of great scientific interest: common deer, fallow deer, roe deer, wild boar, mouflon (mountain sheep) and the wolf, 139 types of birds. In 2015 Foreste Casentinesi National Park joined the European Charter for Sustainable Tourism. The main activities of the National Park and Forestry State Corps are the following: study and scientific research, man-environment relationship development, marginal areas recovering and ecological balance protection, safeguard of ecosystems and natural landscapes, sustainable development and local products promotion, didactics (guided tours for school, sensorial path, forestry museum, planetarium etc.). You must bring a sleeping bag, a mattress pad and a pillowcase. Please make sure you are comfortable with basic living conditions.

**Location and leisure:**

Foreste Casentinesi National Park - Pratovecchio (AR). The workcamp will take place in a quite isolated area, but it may be possible to visit big cities during your free days (both Arezzo and Florence are 50km far). Please, bring with you typical games, recipes, musical instruments from your country.

**Requirements:**

YAP project-related motivation form is required. This workcamp is recommended for those who love nature, enjoy working outdoors, taking care of the environment and walking a lot. ## Description

### Partner:

Since 1992, the Social Centre Magazzino 47 organizes a summer festival of Radio Onda d Urto in Brescia. The Festival aims to finance the independent radio station RADIO ONDA D URTO and its activities. The radio station was established in the 70 s, and since then provides social, political and cultural information out of the mainstream media. The aim of the workcamp is to support an independent voice and, through it, the freedom of speech.

### Work:

International volunteers will make up a bigger team of volunteers helping run the festival and dismantle the festival area. During the festival the volunteers will help maintaining site infrastructure e.g. cleaning the area and waste sorting (for later recycling), helping at food stands and restaurants to prepare, sell and serve the food, clean the kitchen and other spaces, arrange the area for the performances, etc. Volunteers will CLEAR UP and TAKE DOWN the site at the end of the festival. During the CLEAR UP and TAKE DOWN phase (2 working days) work usually begins at 9am with a short meeting to discuss the tasks for the day, and finish around 5 pm, with lunch and regular breaks. However the volunteers may be asked to do other jobs according to the festival needs. The international volunteers will work for around 7/8 hours per day. The work will be done in pairs or small groups in different shifts (to be arranged together with the campleader) in the morning, afternoon and mostly late in the evening. During the free time the volunteers will have the opportunity to join concerts, performances, DJ-sets, etc. in the festival area. Please note that flexibility and adaptability are required, and there might be some physically demanding work from time to time (under the sun or rain sometimes). ). Be ready to work in a big team of national volunteers and hopefully become wonderful members of this great family! International volunteers will have 2 free days, to be arranged with the festival organizers.

### Accommodation and food:

Volunteers will be hosted in a local social centre, called Magazzino 47, a self-managed place for youth where social, cultural, and political activities are organized. For the whole duration of the festival the social centre is closed for visitors and reserved for the accommodation of the volunteers. There are several toilets and a shower. The accommodation is not well-connected with the festival area by public transport so different pick up shifts will be arranged with the organisers to go to work and to come back to the accommodation. Sleeping bags, goodwill and open-mindedness are required.

### Location and leisure:

The festival takes place in Brescia, a city in Lombardy region in the north of Italy. Brescia is a city in the region of Lombardy in northern Italy. It is situated at the foot of the Alps, a few kilometres from the lakes Garda and Iseo. The monumental archaeological area of the Roman forum and the monastic complex of San Salvatore-Santa Giulia have become a UNESCO World Heritage Site as part of a group of seven inscribed as Longobards in Italy, Places of Power.

## Description

### Partner:

The project was born thanks to the collaboration with the religious congregation "Sisters Servants of Divine Providence", founded in Catania (Sicily) in 1921 by Maria Marletta.

Along nearly a century the service carried out by even a small religious family has seen many results, of healthy growth for many children and young people who have not chosen to live on the edge and that only by difficulties related to the family of origin, have the bitter experience of not belonging to anyone.

The objective of the workcamp is to complete the construction of a nature trail made of wooden toys, in order to equip an area of an ancient abandoned farm as a playground for children and adults. We will carry on with the reconstruction of paths and walls that are falling down, of benches and tables to be arranged under the oaks, to offer some relaxing areas for the sharing moments among the guests.

We will place in the soil some berries plants, so that the guests that will live in the farm will be able to transform the fruits themselves.

Our aim is to create a social farm, that in the future could accomodate a residential community of young people at risk of exclusion, or who feels the need of a social recovery. In the farm, through the rural work experience, they will gradually experience a restoration of their human dignity.

Through personalized routes, in a natural environment, they will find reasons to live and hope for a better future.

### Work:

This workcamp will hopefully pave the way for more projects that aim to restructure, through the gift of a collective work, some parts of the old farm, such as the winery and other structures, half-destroyed by different upheavals of volcanic nature.
