DGV MTV 02 Syndrome not Verdict

DISA/KIDS

In our country the diagnosis ¿syndrome Down¿ turns out to be the verdict which leads to the loss of parents in most of the cases. Nine of ten families reject their children immediately. And only five of these nine live more than one year. Only 10% of children with the Down syndrome live in families. The rest of them are grown up and educated in orphanages.

There is a wide spread opinion in the society that the disabled children are usually born in the families of alcoholics and drug addicts. That is why these families get into the zone of condemnation. The children with the Down syndrome are considered to be physically weak and impossible to educate.

Some of the families did not want to put up with this situation and decided to establish a public organisation of parents and defectologists. The mission of this organisation is to defend and realize the rights of the disabled guaranteed by the Constitution of the Russian Federation.

Description of Workcamp: DGV 01 Argamak ENVI

horses are often an object for admiration, as horses are an embodiment of power and grace, beauty and intelligence. Nowadays riding a horse is not such a usual thing as it used to be in the Past.

Today the admirers of the equestrian sport may find very few Riding clubs in the Samara region. Last year ¿Argamak¿ offered equestrian classes, long horse rides and short riding excursions in the forest. The club is also known for dramatizing famous battles of different epochs. ¿Argamak¿ took part in numerous festivals and presented breathtaking horse tricks. Unfortunately nowadays only volunteers and the fans of equestrian take care of the club and the surrounding areas. For the locals ¿Argamak¿ has a historical value. The club staff members need assistance of the volunteers in maintenance, restoration of the club as well as taking care of the animals.

Military historical equestrian club ¿Argamak¿ is located on the 18th km in the city of Samara, 20 km from the center of city by public transport. It is possible to reach the main highway of Samara on foot. Right after you go out of the forest, you get to ¿civilization¿. The club is very close from the very active part of Samara. It is full of big shopping and entertainment centers. The territory of the club is surrounded by the forest. A little lake is not far from the club. One can find a cottage village very close to the club which makes the life of the animals more complicated because of the forest and lake pollution.

Age: 18-35

Participants: 10 international volunteers (5 M, 5 F); 10 local volunteers (5 M, 5 F), 5 compatriots, 4 camp-leaders

Language: Russian/English

Visa support: provided

The workcamp is organized in order to develop volunteers' initiatives; to share volunteers' experience among participants from different countries; to promote intercultural dialog and mutual understanding. Local participants will take part in this camp too so international volunteers will have a great possibility to get closer to the Russian culture with the assistance of its representatives. More than that a few Russians living abroad will be participating in this projects as well creating a perfect possibility for cultural exchange between all the participants of this workcamp. This camp will be especially interesting for those who want not only to see the European face of Russia's Northern capital St. Petersburg but Russia's ancient orthodox tradition perfectly shown in Tikhvin Monastery founded in 1560. The monastery hosts the Icon of the Theotokos of Tikhvin, one of the most respected icons in Russia.

Work: the first part of the time volunteers are expected to work in the monastery helping the staff in the everyday activities of the monastery. Volunteers are also supposed to take part in the preparation to the Day of Icon of the Theotokos of Tikhvin which is celebrated every year. The second part of the work is going to be creating different free-time activities for disabled kids in Tredy centre in Tikhvin. Tredy Centre is aimed to help children with physical and mental disabilities so volunteers should express their readiness and motivation to work with kids who have disabilities. Please also note that working in the monastery includes sticking to its quite strict rules (no alcohol, no loud behavior). Workcamp also includes some trainings and workshops on intercultural communication, teambuilding and work with people who has disabilities

Leisure time: the camp is held in Tikhvin, a large town situated in 200 km from St. Petersburg and has more than 600 year history (firstly mentioned in 1383). The main sightseeing treasure here is the Monastery. Also the sightseeing tour will be offered during leisure time programme. Volunteers will be as well provided with the excursion to one of the nearest cities such as Staraya Ladoga. Please note that excursion to St. Petersburg is going to be hardly possible during the camp so if you want to see the northern capital you´d better arrive a few days before the project or after it and find accommodation for this period by yourself.

Accommodation: volunteers will stay in the Monastery itself (there are some rooms equipped for staying) or in a local hostel nearby. Meals will be served in the Monastery´s canteen. Visa-support is provided. Insurance is not provided.

Requirements: The workcamp is going to be held both in Russian and English languages. Knowing Russian is a great advantage in this project. Motivation letter is required

Travel information

By plane: the international airport is situated in St.Petersburg itself and is called Pulkovo. There are two terminals: Pulkovo 1 for domestic flights and Pulkovo 2 for international flights. When you arrive just near the exit from the airport there is a shuttle bus (number 39 for Pulkovo 1 and number 13 for Pulkovo 2) that costs 28 rubles (€0,75 €) which will bring you to the subway station «Moskovskaya».

By bus: for volunteers from Europe it is possible to arrive to St.Petersburg by bus (Eurolines (www.eurolines.com), Ecolines (<http://www.ecolines.net>), Simple Express (www.simpleexpress.eu)). Usually buses arrive to Baltic Bus Station or Central Bus Station. Near both of them there are subway stations.

By train: it's also possible to come to St.Petersburg by train, which arrives to Finnish Train Station or Vitebskiy Train Station. Near both of them there are subway stations.

More information about how to get to the camp within the city will be provided in infosheet.

The Russian wild animal quarantine center «VELES» performs a full complex of works concerned with import of wild, ornamental, zoo animals to Russia and also their export abroad; their maintenance, treatment, quarantine, rehabilitation. Together with the Leningrad zoo The Quarantine Center «Veles» carries out programs on rescue of wild animals in St.-Petersburg and Leningrad region. «Veles» is the only one such organization in Russia. More information in English can be found here: <http://www.rqc-veles.com/?/English/Main.html>

Work

Volunteers will prepare food for animals, clean cages, feed some animals (not dangerous), help workers is some manual work in the center, such as gardening, painting, etc. Work starts at 9 am and finishes at 4 pm with 1 hour break for lunch and short breaks for tea/coffee. Among the most interesting animals bears, bobcats, seals, alpacas (kind of Lamas), small horses and foxes are living in the centre. Please pay attention that all volunteers are to show their insurance on arrival and sign up the safety rules of the Center! Nor we, nor the Center are responsible for any damage made to volunteers on their own fault. Motivation letter is compulsory. Knowing some Russian is a great asset in this project.

Location and Leisure time

The «VELES» is located in the village Rappolovo, Vsevolozhsk district, Leningrad region. It is easy to reach it, but at the same time it is distant enough from a city \approx 20 km. The «Veles» is situated in an environmentally appropriate zone, among the nature. It essentially heightens an effect when treating animals, makes their maintenance in the Center comfortable. On the territory of the Center there is a possibility to make fire and barbeque, enjoy Russian banya. In 10 minutes walk there is a lake suitable for swimming and the farm for bisons, where it is possible to rent a horse. Also volunteers will have a possibility to know one of the most beautiful cities of the world - Saint Petersburg. For a weekend volunteers can stay in the city if they wish (for extra fee of 25 euro).

Accommodation and Food

Volunteers will live on the second floor of center's building in double rooms. No need to bring a sleeping bag. There is a sauna/Russian banya, small gym, TVs, kitchen, and washing machine. Please keep in mind that the accommodation is situated outside the city so electricity may be provided unregularly. Internet may be provided via WLAN upon request if there is such capacity. Meals will be prepared by volunteers, products are provided. Please note as well that due to keeping some animals on the 1st floor of the center there might be unpleasant smell upstairs as well, so be ready for this. Don't forget to bring working clothes and swimming-suit! Please pay attention that in all our camps we do provide a decent accommodation and food that is going to help you to enjoy volunteer experience; however we strongly believe a workcamp should not offer an all-inclusive hotel accommodation and 5-course meal and should instead focus on the unique changing experience you get while volunteering. Visa-support is provided.

Requirements: motivation letter, good attitude to animals, insurance.

PROJECT: We present a pilot project. Country Estates of the St-Petersburg region were built in 18-19 centuries. Among the owners there were members of the royal family and famous statesmen, military leaders, artists, composers, architects, writers, such as Vrangél, Repin, Nabokov, Rerikh. Many of country houses were damaged, especially the parks, landscapes and interiors. We want to bring the former meaning to the country estates as pieces of world heritage. Today the restoration of the country estates is an important deal together with the renewal of the unique parks. The project will be implemented on one of these estates. We expect our workcamp will help volunteers to achieve the following object: to raise awareness among the local population regarding heritage and the importance their participation to preserving this site. During these days volunteers will prepare an open air performance for local people and international volunteers. Our participants will try to reproduce the historical events, which a site is connected with. It might be the mysterious fortunes of famous persons. In addition to the work a workshop on renovation techniques will be offered. The big advantage of this workcamp is an opportunity to see both the imperial city St. Petersburg and the real Russian countryside. The project will be confirmed not later the 1 May.

WORK: Our volunteers will be working in in the parks of the Country Estate. The volunteers will be engaged to improve parks: take care about plantations of trees, mow the meadows, cure the trees, clean the hollows, sweep the grounds, cleaning them out of the garbage, etc. Volunteers will be working 5-6 hours per day 5 days a week under the supervision of the heritage specialists. In addition to the work a workshop on renovation techniques will be offered. A few days (about 3 days) volunteers will be working in Saint Petersburg. Our volunteers will also discover historical center of St-Petersburg, where a lot of buildings are under protection of UNESCO. The work will be combined with a cultural program.

ACCOMMODATION: Volunteers will live in a summer caravan in close proximity to the heritage site surrounded by the ruins and park. LOCATION: Some days in St. Petersburg and some days in Leningrad Region. LEISURE TIME: St-Petersburg is a cultural capital of Russia <http://www.gov.spb.ru/>, so volunteers will have an opportunity to visit numerous museums, theatres, galleries and exhibitions, country residences of Emperors, Grand Princes and grandees. In the countryside volunteers can go fishing, swimming in the lake or pick different berries, drink tea from samovar and even go to the banya. During this workcamp the volunteers can visit and work in several the most famous estates. TERMINAL: Pulkovo International Airport is located about 17 km from the St-Petersburg center. SPECIAL REMARKS dates coincide with the camp WHV MT04/14 «Saint Petersburg

and UNESCO Heritage sites of 14;18 centuries» . Volunteers both camps will meet and undertake joint activities. Volunteers should bring working clothes, gloves and sleeping bags. Besides, it would be great to take something special from their countries (photos, food or souvenirs) for international party in the workcamp and demonstrate them as special features of home country.
