Description of Workcamp: DJ-86 20 JULY - 03 AGT 2013, JIMBARAN PROJECT DISABLED + RENO, 12 VOL

**Background:**

Bali disabled School was founded with the aim to cater for the needs of disabled children and youth in Bali and the surrounding areas. Moreover, this school is also aimed to encourage and motivate the disabled children and youth to struggle for their future. We would like to host foreign volunteers because we believe that their interaction with the children, during education and vocational classes and other therapeutic activities will be of great benefit as our students have little or no chances to meet and live with people from other cultures. The intercultural dimension that their presence will generate will also be welcomed and valued by the local staffs. The support that the volunteers will give to our teaching staff, particularly those teaching English, will be invaluable.

**Work:**

The role of the volunteers will be assisting local teacher in classes like teaching basic conversation in English, helping teacher in giving training on physical activities of the disabled students like making simple handicrafts, playing, doing simple sport etc . His/Her influence on students is expected to create a sense of knowledge of other realities of the disabled kids and other cultures in a way that improves their own perception of themselves and what they can achieve. Also to open the mind of international volunteers that the disabled students also need attention to face their future. It will also give opportunity for the international volunteers about the treatment that should be done by the families of disabled children.
