## Description

### Partner:

Mangkang is a fisher and farmer village located in west Semarang. This Project has become annually and continuously project organized by IWC in answering the needs of preserving the coastal side of North Java Sea in Mangkang. About 1,1 km costal line in Mangkang area is now in danger due to the abrasion of the sea, cutting mangrove by local people and heavy force from the river flows. Before, many kinds of fish and shrimps are living there, but now since the condition of the mangrove forest is getting worse, it is quite difficult to find the species anymore. Fisherman also needs to go further to the ocean to fish and it means much work they need to do to earn money. Mangkang is the project site for IWC World Tanabata Action of CCIWS UNESCO and Climate4Peace of SCI International.

Project: Preserving natural diversity and sea shore from the abrasion because of no more mangrove and too strong waves from the ocean will be the main focus of the camp. This project implemented by collaboration between IWC Indonesia and local community named BIOTA Foundation. <http://biotafoundation.blogspot.com/>.

Aims: To initiate the project of protecting the sea shore by planting mangroves and, to increase the awareness of the local people, the fisherman, and local students to protect their environment as well as their future.

### Work:

Work: Planting mangrove and other trees in beach, environment education garbage management discussion to local people and local children, some physical activity to support garbage management program in this are, school visits for environment education, Green campaign in city centre, and manage the mangrove fruits to be snacks or foods and promote it. A testimony of previous volunteer from Lithuania <http://volunteersways.blogspot.ch/>

### Accommodation and food:

IWC Volunteer house, sleeping bag is needed, self cooking, and self management.

### Location and leisure:

Mangunharjo Village, Mangkang, Semarang Central Java Indonesia. [Click here to see the map.](#)

## Description

### Partner:

Borobudur Village Heritage Project located nearby the Borobudur Temple Compound. The Borobudur Temple Compound is the greatest Buddhist temple in the world. Nominated as one of World Heritage List, The Borobudur Compound has the most complete Buddhist relief. In a year, there are approximately 2.9 million people came to see and learn Borobudur Temple Compound history and philosophy. Even so, people living nearby the sites were sees Borobudur only as a tourist attraction. Local community, who supposed to be the first guard line on sustainability preservation activity, mostly works as vendor in Borobudur Temple Compound. Starting in 2016, collaborated with local community and stakeholder, we want to raise awareness of local people to be more involved in preserving their own cultural site. We believe that Borobudur Temple Compound should be preserved not only by visitor who come to Borobudur, but also people living nearby.

### Work:

Create fun atmosphere for kids in village to studying Borobudur Temple Compound and the history of it by storytelling, games, drawing, etc. Create creative media to promote local heritage, raising awareness local people about their heritage by campaign, either a cross cultural understanding class.

### Accommodation and food:

Volunteer house will be provided by local community with shared toilet and bathroom, sleeping bag and mattress needed, and self-cooking.

### Location and leisure:

Borobudur Regency, Magelang, Central Java, Indonesia
