Description

Partner:

Ming Jeng Community Development Association, Ming-Jeng Elementary School

Work:

W1: We will take the volunteers to carry out the work of painting murals in the community, including restoration of the community's old fence. W2: Moreover, Ming-jeng elementary school will have a summer English camp, which will involve the participation of volunteers. Volunteers will teach students English, play with them during the camp; and have musical exchanges as well.

Accommodation and food:

1. Local district home stay and personal commodities are required. 2. Breakfast and dinner will be provided by home stay family. 3. Volunteers will have lunch boxes in the afternoon.

Location and leisure:

We will offer volunteers a tour of famous spots, including Taichung citizen park, LuKang Old Street, and Dong Feng Green Passage. (1) one day trip to Taichung citizen park (team tour) we will go biking at Dong feng green passage in the morning, dining at local restaurant in the afternoon and have sightseeing around in Taichung citizen park, shopping at the market nearby the park. We'll eat the local cuisine there. (2) One day trip to old street of LuKang (team tour) Exploring the old temples and antiques of LuKang in Jhanghua county, walking at the old street and get further understandings of the Chinese culture and religion. Later, have volunteers to enjoy delicious seafood there. (3) We will hold the cuisine feast at the last day before volunteers' departure, our community volunteers will prepare the Hakka gourmet for the volunteers.

Requirements:

We hope that our volunteers are capable of playing music instruments, and equipped with English proficiency. They are expected to paint murals in the community. Volunteers will be required to submit an application letter, which will include a self-introduction and their motivation for volunteering.

Louyoung Cultural and Education Foundation

Work:

1. Greeting meeting about 2 Jul. Prepare an introduction about yourself. About 5 mins, you can make a brief PowerPoint to present yourself.
2. Work Around Make Mosaic creation in Pi Tou (219;y238;i231;-i) Work Around create some art work in other community. Work Around Help us to clean the garden nearby local museum (louyoung foundation) repair the old house.
3. Culture Night About Please prepare one dish from your country, a PowerPoint to introduce your Country and any activities or gifts to share with community and volunteers.
4. You can plan your own schedule on Free Day, and the Kung-Fu learning is free joining.
5. Volunteers will prepare dinner by turns, and you can get the opportunity to visit traditional market.

Accommodation and food:

We will stay in Xiluo International Volunteer House (No.72). The house is near Xiluo Cultural Museum, there are comfortable beds, air conditioner, toilet, hot shower (only one, so we suggest boys can go No.81 which is the Xiluo backpacker house.) and kitchen in the House. Volunteer will have a great time here for sure. The backpacker house is just near by the working place. And the backpacker house belongs to Rotary Club of Xiluo. They always welcome the volunteers and because of their kindness, we have to keep good management (to always keep clean, no smoking inside building, etc.). We will ride bike as main transportation way during the project, so please make sure you have no problem with bike riding. We will cook by ourselves but still have opportunity to eat in the local restaurants or packed meals. Internet can be available in Louyoung Foundation office, backpacker house and Volunteer House.

Location and leisure:

Xiluo Township, a historical place in Yun-Lin County, located in central Taiwan. 50 minutes to Taichung City by bus, 2.5-3.5 hrs by bus from Taipei City. Description

Partner:

Rinan Community Development Association

Work:

Background and Host Org: Rinan Community of Dajia District which is located in the northernmost part of Taichung city. Before development of industrial zones, most of residents was developing agriculture production. They planted rice and taro, fed ducks and chickens etc. After the development of industrial zone, factories hire a lot of foreign workers to produce labor work. But at the same time, the population of the prime outflowed seriously, and many elderly and children still in the community. Our community become lacking vitality and creativity. Also, our community is in the rural areas, few foreigners can enter the community and interact with the residents. We hope that the joining of volunteers will make the community more vital and enable young people in the community to expand their international outlook. Objective: 1) Get to know more information about Rina community and help with designing our community logo and draw the well. 2) Volunteers can do some health promotion activities with the elders. 3) We hope that the young generation in the community can introduce our features to international volunteers, and they can be much more interested in participating in activities in our community during and after the volunteering workcamp. Work: 1) Accompany with the elder: our community hold health activities once a week. We expect the volunteers to take part, design interesting activities, so that the elder can experience different cultures, have fun, and learn new things from different perspectives. 2) Help to clean the environment: our community live a lot of elders, some of them need help to clean their house. Also, we will go Tieh-Chen mountain to see the view, at the same time we will clean the mountain area. 3) Do some art works: Observing our community and design a symbolic logo for our community. And use your imagination and ability to paint to draw a well. 4) Cultural exchange activities: we will have a time let volunteers to show their culture tradition with each other. To let the activities smoothly, volunteers can prepare some activities to let us know more about your cultures.

Accommodation and food:

1) All the volunteers will stay in the community center together. Volunteers need to bring toiletries by themselves. 2) Most of food will be provided by community, and some time we will combine activities (for example: visit night market) with meal, at that time we will provide money to volunteers.

Sanhe Community Development Association

Work:

We will focus on environmental sustainability by building a three-room housing with the rammed earth construction technique. Using raw materials such as soil, straw and gravel found locally which will teach volunteers the environmental effects and sustainability for the habitat. This will not only be a labor intense experience but also a spiritual cleansing journey for you

Project Overview: We picked Sanhe village to be the place to promote sustainability and satoyama initiative because in this agricultural community where there s no convenient public transportation connecting to the metropolis., but the people believing in all beings are equal; realizing that people already have plenty and we can give more to our habitat, the earth The township is known for the Buddhist temple in the center of Longtan Lake. It was voted the most distinctive town in Taiwan 2015. In the name of love for the environment, Community Chief Xie rolled up his sleeves, lead by example to live more but desire less. Due to the success of the first workcamp in 2018, Sanhe has already had intimate connections to people from 7 other countries, therefore, we are determined to continue pushing the Growth further This is most suitable for those especially interested in the life of a rich culture and tranquility, and perfect for people who care about sustainable habitat. The villagers spend their lives mostly within their community, this program provides them with the amazing opportunity to learn English, as well as embrace other cultures, from international volunteers.

Aims: With Agro-living Wellness, we aim to achieve 3 Growths: 1.Growth in awareness of the importance of sustainable habitats (satoyana)2.Growth in local work force participation rate of the community3.Growth in volunteersU wellness of body, mind and spirit

Achievements in 2018: Environmental Work: 61557; We built 2 bamboo houses for the community61557; We maintained and repaired stone path inherited from the Qing Dynasty61557; We maintained and painted wooden walk paths61557; We maintained the tea plantation field61557; Cultural, language exchanged with local work force

Personal Development:61558; Learned Hakka song and incorporated with international dance moves61558; Learned Chinese Calligraphy and Culture61558; Learned Chinese Tea history and Arts61558; Practiced Tai Chi and Meditation 61558; Classes on Sustainability

Accommodation and food:

Community Center. Sleeping bag is required Food will be offered by local people but volunteers still have a chance to cook in some cultural exchange events.

Location and leisure:

The township is known for the Buddhist temple in the center of Longtan Lake. It is north of Taiwan, locates in the same city as the Taoyuan International Airport. It was also voted the most distinctive town in Taiwan 2015GM: <https://bit.ly/2EMytc> Singing and dancing, optional day tour on free day

12-DAY AGRO-LIVING WELLNESS AT SANHE VILLAGE**VYA-1907SH-19****Requirements:**

Please take note of the project s minimum requirements:- age 18 - High school graduate- Able to work in heat (sunlight), nature with insects- Good physical fitness- Love a good sweat- Immunizations (please consult your doctor)

Description

Partner:

Sanjiao Community Development Association

Work:

This work camp was mainly designed and implemented by the Sanjiao Community Development Association of the Shengang District of Taichung City, Taiwan Province, and implemented in the Triangle Community. In environmental resources, we know that there is a platform for international volunteer cooperation. In the triangle community where talent is scarce, many projects want to be implemented, but human resources are insufficient. There are many old factories, natural pastoral scenery, and the most famous in the community - Tan Ya Shen Green Park Road. Since the location of the community is at the border of the adjacent area, it is often easy to pass and is less recognizable. The biggest exposure is for tourists on the Green Park Road. In order to make the community active and invite international volunteers to join the community project, this time we hope to build a shared kitchen in the community through the power of everyone to facilitate the use of more community partners. Through the power of international volunteers, in addition to opening up the old vision of the community, we must accompany community partners to share international dinners and activities, so that small communities can also have new energy injection, and most importantly, attract more local young people. People return to their hometowns and tourists to get to know the community, develop community tourism image and residents' new horizons and regenerative capabilities. I think there are still new possibilities in this old-fashioned community. Aims: 1. Create more community ideology by sharing the kitchen with the community. 2. Make the basic equipment of the community activity center more perfect. 3. Through the construction of interaction, I hope to have more topics and possibilities near the old and the young. 4. The old community should be able to work with more people through activation and reorganization. We will enter the community together and renovate a typical community kitchen together under the leadership of professional teachers.

Accommodation and food:

The accommodation location is currently located in the middle of the field. It will be mainly used for camping on the grass. It is necessary to bring your own sleeping bag. Part of the diet is mainly composed of community mothers taking turns preparing and sharing dinner internationally.

Location and leisure:

This place is located in Taichung City, Taiwan, and the triangular community of Shengang District, adjacent to Taichung City. Google Map: No. 18, Lane 102 Zhongxing Road, Shengang District, Taichung City

Requirements:

If you have a painting experience or expertise in volunteering, we very much welcome you to lead community partners in creating beautiful homes.

Description

Partner:

Heng-Shan Community Development Association

Work:

Heng-Shan Community has spent 5 years reviving the lost traditional toy culture on a historic trail. For more than 200 years, this path had been a transport corridor trading salt and rice, and Heng-Shan became a cultural town since various toys and stories left by travelers. Today, people get back the disappearing Taiwanese folk toys, even recalled childhood memories by one hundred story paintings. There are, furthermore, a series of innovative toys were created with cultural thinking which were awarded Taiwan Good Craft (C-Mark) certificate in 2016. This summer, as keeping building up a U(folk toys town, U Heng-Shan Community plans to make the historic trail an interactive gallery with not only Taiwanese but also international toys. Aims: 1. International volunteers visit would enable more toys from all over the world found in Heng-Shan, built up together as a 200-meter interactive toys gallery, and, in addition, encourage Taiwanese toy culture to be seen by the world. 2. International volunteers are expected to be Taiwanese folk toys ambassadors, who have fun with the seniors and primary students with toys, as well promote Taiwanese toy culture to the world. 3. To share diverse folk toy cultures of new immigrants, then link up 400 years of Taiwanese folk toy culture on the historical trail. 4. To innovate interactive toys and wall-paint the international toys image with local toy-making experts. Therefore, through the global toy cultures or Taiwanese people's lives you learn, arrange a unique international folk toy festival. WORK: 1. Assist the painting work of the large scale interactive toy. 2. Color the wall along the river as an art gallery. 3. To integrate into the community by interacting with local students and the elderly.

Accommodation and food:

1. The toy cultural center of Heng-Shan occupies about 500 square meters, and the building area, including 3 houses, is about 200 square meters. It will be used for accommodation for volunteers. 2. Local residents might host volunteers during holidays.

Location and leisure:

No.76-1, Yonghe Rd., Daya Dist., Taichung City 428, Taiwan

Kun Shan Elementary School, Kun Nan Community Development Association

Work:

Kunshan Workcamp, the very first international workcamp will held in this year by VYA Taiwan, Kunnan Community Development Association and Kun Shan Elementary School. This workcamp is aim to make friends with close interactivity, achieve international understanding and improve children's English capacity and broaden children's global understanding and build the friendship with foreigners. We will conduct a five-day summer camp in Kun Shan Elementary School. In those day, we will arrange some courses, such as playing games teaching English, make some traditional handicraft, or some cooking course and so on. After two-day's break, we'll join another five days to repair/arrange a deserted house into a multipurpose room, used for children's game room, meeting room, teahouse for elder people etc., with local residents and volunteers. Participants will also have opportunities to experience traditional local market, night market, and a local tourism in flexible schedule, and to chat with the local people and enjoy their passions. Kunshan community, located in the countryside of Taichung City, is a small serene village in the middle of Taiwan. Because of the Dajia river, the weather condition is suitable for producing many high quality agricultural productions. Where is rich in flowers, fruits and vegetables all year round such as orchid, mushroom, grape, orange, etc. For vegetable and fruit lovers, this place is definitely a heaven. However, the population structure becomes unstable M shape due to the industry transformation. Young people has less interest in farming than looking opportunity in downtown, that's deepens rural-urban gap and reduces development energy of Kunshan community. Because of the scarcity and unequal distributions of resource, a large number of local residents are at the poor social and economic status for a long time, children are lacking of English learning resource as well. Besides, Local residents want to understand their own culture and social values further. In order to tackle these problems, through this camp held in Kunshan, we wish to promote global understanding, trigger students' learning interests and enhance their capacity of English through in-depth interactions between local residents and cross-national youths. Empowering the young generation to think globally, act locally, we introduce Kunshan to the world with a brand new perspective strongly. Aims: 1) To add new tourism attractions in Kunshan village through global and local voluntary power 2) To promote friendship/understanding/solidarity among local people and cross-national volunteers 3) To ground a firm foundation and extend development of international workcamps all over Taiwan 4) To enrich and improve the variety of learning resource and environment for teenagers. Works: W1: We will teach English and play with children in Kun Shan Elementary School, W2: We work together with local youth and woodwork master to clean, repair roof and doo

ABOUT LIOUGUEI Since the devastation brought by Typhoon Morakot in 2009, the community Liouguei (Liouguei) has been moving on its way towards reconstruction and recovery. The local has made several attempts, including the establishment of Liouguei International Volunteers Camp in 2013. By holding the volunteers camp here at Liouguei, we hope to bring in energy and perspective from the outside, and at the same time imprinting the culture and characteristics of Liouguei on the memory of the volunteers involved. THE SITUATION WE FACE Because of the aftermath of the Morakot disaster, the problem of outward emigration in Liouguei became even more severe. Several had left for work opportunities since local tourism industry took a hard hit, and most of the local youth are unwilling to stay in their hometown for education. Thus, through the volunteer camps, we try to convey messages to the younger generation that their hometown has a legacy to pass on and can do something for them too. Fortunately, previous camps did bring changes to the community. Some local youth had made the decision of going abroad; some are still in contact with foreign volunteers. There was even a case of cross-nation marriages stimulated by the camp NOWADAYS C WE WANT YOU After ten years of recovery and rebuilding, 2019 is a very important year for Liouguei U s local community, thus we want to invite you to come and live in Liouguei for two weeks. During the camp, we will be providing introductions on Liouguei, from local industries to the eco-system. By the end of the camp, we will be arranging group sharing for you to share your experience throughout the camp. Aims 1-Explore the new look in local community by international volunteer U s vision. 2-Building the confidence and cohesiveness for people who living in Liouguei. 3-Invite young people come back to hometown, and join the local activities. W We would like to show you the butterfly conservation, tea industry and fruit in Liouguei. We have special variety of butterflies with natural environment. Tea ceremony and fruit is popular feature at here. The most important thing that we hope volunteer enjoy living with countryside, and interest in learning different culture and

Dazhong Community Development Association

Work:

The industry of Dazhong Community is rooted in the love of the earth, allowing resources to be reused. The wood which has been planed is the same as the new one. The initial treatment of the recycling of the wooden pallets is pulling, making them flat. And then the next step is the customization of the 3D concept of aesthetic design, which uses U(Luban SkillU) to let the memory of the community more impressive. Through the continuous improvement of the skills of the wood industry, and community talent training to promote and inherit. Innovative Dazhong's regenerative skills deepen love in every corner, hoping to lead the community return to the original but also innovative one. Under the leading of community aesthetics teachers and craftsmen, the community industry has improved a lot. At the same time, those who are interested in craftsmanship can exchange their ideas, make discussion. Therefore, the communication platform plays an important role. In addition to the family/pound/community activities are also important. They let the residents have the same goal of working hard to make the community a better place and at the end the community will start to gel. Through the participation of international volunteers, we can not only bring the concepts of community industry and environmental protection to the whole world, but also integrate into the community through the international thinking of international volunteers, and let volunteers fully understand the rich human landscape of the community. And through the common goal of the residents loving the community to find more talents to gather, exchange, brainstorm, and stimulate each other thinking. Through the organization of local and government resources, we will attract local art, cultural creativity and cultural products. We will also foster local ecological environmental protection concepts, committing to local natural and cultural landscape improvement and other related work. The collection of the old and new National Army historical buildings and the extraction green aesthetic living space will be combined, developing local culture, such as the National Army's historical construction and woodwork products, which fully promotes the community's military history. Dazhong Community Development Association profits from recycling. It also links local woodworkers, artists, aesthetes, and warmhearted voluntary groups, making use of recycled timber as installation arts that make the street corners prettier. The association had been invited by National Changhua Fine ArtU's Museum to sponsor goods for charity sales for typhoon victims. Woodwork Park, taking aim on energy conservation, emission reduction, and helping the underprivileged, recycles timber as materials to make customized daily articles for underprivileged people, such as benches, stools, cabinets, deck chairs, and even accessories. The park locates right below Wang Gao Lia

Xi-Shan Community Development Association

Work:

Xi-Shan community is located in the center of Taichung, near the foothills across the mountain, looking for the Taiwan Strait, located in the township.60 of the residents for agriculture are planting wheat, rice, red barley, grains class. Community from 6 years ago, due to the presence of precision science park, it is hoped that the young population can return, the majority of the elderly in the community is lack of vitality and creativity, due to population aging, lack of motivation to create a community. It is hoped that the participation of international volunteers will encourage residents to care for community affairs and expect various cultural injections to collide with explosive sparks. Aims: 1-Let the international volunteers make their own lion head and painting, lion and the folk art is the community folk culture, the production of traditional lion head and painting, so that Xishan has become a lion outside the village of arts and crafts village folk art. 2-Cooperate with the Community Service Center for the Elderly, so that international volunteers can lead their elders to make health promotion activities (once a week), so that community elders are more interested in going out and enjoying their senior life. 3-Hope that through international volunteers, young people can be more interested in community activities to participate in community activities, so that young people in the community to introduce their own community characteristics to international volunteers to communicate with each other. W: 1-To encourage the elderly to participate in community activities, the community one day a day for the care of the elderly stronghold, health promotion activities, led by volunteers to experience the different cultures, stimulate curiosity and mobility. 2-Hope that through the international volunteer lion head and painting, experience traditional Chinese ghost festival ceremony, into the community culture so that residents can also enjoy the international volunteer ideas but also enrich the community experience. 3-Combining community martial arts teachers and craftsmen to make the international volunteers and the community residents make the experience together, let the international volunteers make the lion s head and painting, train the lion s skill and experience the community Song Jiangzhen, the official will be the first, Painting folk art, the results show back points, the front is an important community culture, to take this opportunity to carry forward and exchange. 4-And then practice the lions, and finally to the elders of acceptance acceptance performance exchange. 5-There are Japanese schools and Aboriginal schools in the community, hoping to share the experience with international volunteers and experience the folk life experiences of different countries. 6-60 of the community is engaged in agriculture. During this period, we also invite international volunteers to experience the farmerr

Our story: Do you know what good brothers mean in Taiwan? Actually, they imply something you do not know. Do you know what water lantern releasing is? Do you know why people burn ghost money? Do you know ghost month starts on the first day of the seventh lunar month and ends on the last day of the seventh lunar month? What do we do during the ghost month? Join and learn with us.

Project Description

1. Background Taichung Port, which is located in Wuqi District, Taichung, is the second largest international commercial port in Taiwan. It also ranks ninety-seventh in the world. MITSUI OUTLET PARK is the first seaport-themed shopping mall of its kind in Taichung port district in Taiwan. Our community, Dazhuang Community, is situated in Taichung port district. It has agricultural culture, and is the largest community in Wuqi District. The impacts of the urban and traditional cultures made Dazhuang Community such a unique cultural feature. Of all communities in Wuqi District, Dazhuang Community has the most the elderly and young population. One out of every nine people is an elder. Therefore, Dazhuang community has dedicated to taking care of the elderly for a long time, and is going to organize more plans and activities for teenagers in 2019. With more volunteers putting into this community, we hope that they can offer the elderly and the young better care and education and infuse much vigor in the community.

Learn more about Taiwan: <http://eng.taiwan.net.tw/> **Learn more about Taichung:** <http://travel.taichung.gov.tw/en-us/Home/Index>

Aims

- 1) Get to know Ghost Festival, release water lanterns, and help with setting up the venue for venerating.
- 2) Volunteers can do some health promotion activities with the elders and share their exotic cultures with the children to let them gain the special experiences and broaden their horizons.
- 3) We hope that the young generation in the community can introduce our features to international volunteers, and they can be much more interested in participating in activities in our community during and after the volunteering.

WorkCamp Works:

- 1) Accompany the elderly: Our community holds health activities three times a week. We expect the volunteers to take part, design some interesting games and prepare some performances, so the elders can experience different cultures, have fun, and learn new things from different perspectives.
- 2) Hold an activity for the local elementary school students, bring the global info into their world, and intrigue them.
- 3) Get to know ghost festival in Taiwan and share ghost-related festive culture in your countries with everyone.

Accommodation and food:

- 1) All the volunteers will stay in the community center together. Volunteers need to bring toiletry and summer sleeping bag by themselves.
- 2) Everyone will have a cabinet to deposit his/her luggage.
- 3) Volunteers can hang and dry their clothes at the designated place on the third floor.
- 4) We offer the hangers, the brushes and the washing soup. Volunteers can prepare these things by themselves if needed.

Ding An Community Development Association

Work:

The Ding an Community of Da an District, Taichung City is located in the northwest corner of Taichung City, on the south bank of Da an River. It is close to the Taiwan Strait. The residents are mainly farming and animal husbandry, planting rice, steamed bread, raising livestock, ducks and other poultry, and the industrial and commercial development is insufficient. The outflow of young people is serious. The elderly and children in the community are mostly lacking in vitality and creativity. Due to the aging of the population, there is a lack of motivation for the community. Because of the geographical location, the educational resources of children and children are relatively insufficient. I hope that the participation of volunteers will encourage children to pay attention to their hometown issues and expand their international outlook. It can also encourage residents to care about community affairs, and expects different cultural elements to collide with sparks. Aims:1.Invite international volunteers to accompany children to understand the cultural history of the community, the ecological landscape of the estuary and make an investigation record during the summer vacation.2.Cooperate with the elderly care service bases of Ding an to let international volunteers lead the elders for health exercises or the promotion activities for the elderly, so that the community elders are more interested in going out.3.It is hoped that through international volunteers, young people in the community will be more interested in participating in community activities, so that young people in the community can introduce their own community characteristics to international volunteers.W: 1.Accompanied the community children to understand the community s human history, the estuary2.ecological landscape and make a survey record.3.Volunteer and community children s can teach each other language.4.Encourage the elderly to participate in community activities. The community handles elderly care centers and health promotion activities every Friday. The volunteers lead the elders to experience different cultures and stimulate curiosity and action.

Accommodation and food:

The accommodation is located on the second floor of the Community Activity Center. The ground floor can accommodate up to 25 people. There is no need to bring your own sleeping bag. The first floor bathroom is fully equipped. There is a kitchen on the first floor.

Location and leisure:

It is close to Dajia Town, Dian an Palace, Tai an District, Taichung City. It takes about 15 minutes by car. About one hour drive from Taichung City.Leisure Activities:1)GaoMei Wetland reserved area2) DaJia Mazu Temple C the heritage site3)Feng Chia Night Market

Xia Liao Community Development Association

Work:

BackgroundWuchi Old Street was an economic center of fishery, shipping and commerce in early years. The old buildings are currently seen which was reconstructed after the central earthquake in 1935. Different from the gorgeous and complicated Art Deco than other old streets, this one is an eclectic building. With a variety of hue wash stones to decorate walls and geometrical shape of door and window; these are quietly aesthetic. The retaining of Yingchuanyan style, Sintongcheng, Linjian, Hongfutai, Peitongan and other business establishments, all can witness prosperity of Wuqi Old Street in the past. Xiayu is located on the north side of Wuchi Old Street. The construction of Taichung Port has lost the sea. At present, the community needs to create old space and preserve the old culture. Project Aims Help the community to create, preserve and revitalize the old house in the fishing village that has lost the sea for 42 years. Organize concerts and market events for the topic. Participate in local travel and ghost festivals. In addition to understanding local changes, experience local culture. Works Help the community to create 2 place, preserve and revitalize an old house. Organize concerts and market events for the topic. Participate in local travel and ghost festivals.

Accommodation and food:

We will stay in an accommodation owned by the The Presbyterian Church In Port of Taichung. Sleep in shared room with woody bed. Sleeping bags are compulsory (volunteers need to bring your own, please). Meals will be served by the community except one dinner have to be cooked by volunteers. Need to bring mosquito repellent.
