DESCRIPTION OF WORKCAMP:

Background/Project: Nepal is a beautiful mountainous country. More than 80 % of the population live in rural areas with over 35% of the population living below the poverty line. Access to proper health, hygiene and sanitation facilities is often very limited and awareness of correct hygiene practices is low. Only 46% of the population has access to toilets, leaving 54% to practice open-air defecation. Due to lack of awareness, the community site has to deal with various health problems. Recognising these concerns, VIN organises camps to address health issues. It focuses on Workcamps/ short-term projects which include working along with local partners to spread health and hygiene awareness among the community people. The work will vary largely on every camps and will include some simple physical work. The implementation of the Total Sanitation Project is expected to generate a significant improvement in the health and sanitation conditions of the community and protect the environment as a reduction in the occurrence of sickness within the community and an improved quality of life. Our aim through this project is to do hands on activities supporting people in health and hygiene, create awareness among the people and to give them more instruments to feel confident and feel free to decide for their future, and for the future of a new generation. VIN cooperates with several local partners in assisting various government schools by creating awareness about the health and hygiene; cleaning or constructing toilets, etc. Objectives: To involve the community people and sensitize community people about Health Hygiene and Sanitation issues. To construct / reconstruct sanitation facilities Work: Construct toilets for the needy families. Raise awareness on health, hygiene and sanitation. Conduct research on sanitation. Placement Support Process: Each volunteer is greeted and received by VIN local staff at the airport and dropped to a local host family. The first day is the arrival day. The second day volunteers will receive a full day orientation at VIN office in Kathmandu. The placement orientation will cover cultural tips, survival phrases on Nepali language, health tips, preparation for project activities and an introduction to VIN. Then actual workcamp starts from the third day. You will always be guided by a Nepali camp leader and VIN supervisors will visit you time to time for follow up support. Should you have any concerns on the workcamp, you may always call us for immediate help. During or after the workcamp, our staff will take you on a half day sight-seeing tour to cultural heritage sites. On the last day of the workcamp, you will submit a detailed work report, fill up an exit form and sit with VIN executives for exit interview and feedback session.

COMPLEMENTARY ACTIVITIES - LEISURE ACTIVITIES:

VIN takes you a half day cultural sightseeing. Either before, during or after your workcamp. VIN also organize weekends travel tours like Chitwan Jungle Safari, Pokhara, Nagorkot on extra costs if you are interested.

(The detail info sheet and acceptance letter will be sent from VIN after we receive your Complete Volunteer Exchange Form (VEF) from the sending organization)

ACCOMODATION/FOOD:

Accommodation: The volunteers will stay with the host family/hostel identified by VIN. The living facilities are simple and basic. Male and female volunteers will share the same living area with separate rooms. The volunteers sleep on simple beds / mattress. Please bring your sleeping bag.

Language: Basic English should be spoken among the participants

LOCATION:

Tarakeshwor : Tarakeshwor municipality is situated outskirts of Kathmandu District. It is around 10-15 km from main ring road to Balaju, Kathmandu covered with hills, fields and woods.

2. Okharpawa community: It is in Nuwakot District, which is 17 km from Kathmandu with fields, woods and hills.

Meeting point: VIN staff will pick each volunteer from the airport. The volunteers are requested to send their flight details to VIN on time so that we can send our staff with your name card and VIN's Logo.

If you want to come earlier and explore the country more, you may find pre-paid taxi at the airport or VIN may help you on that. You also can come to VIN office, Balaju on the first day at the latest 12.00 midday.

DESCRIPTION OF WORKCAMP:

Childrens Development is one of the major programs in VINs Integrated Community Development Approach. The Goal of the Childrens development program is to protect the rights of all children by providing them access to basic quality education, developing their life skills and providing access to health services through community health program. VIN has different projects under the childrens development programme such as Childrens Clubs (CC), Early Childhood Development (ECD), School Attendance Project (Teacher Development, Parenting Education, School Infrastructure Development, Child Sponsorship) and Child Care at Orphanage. Even in the recent days in Nepal, schools are focusing on examination and are doing less for developing the creativity of the students. The teachers only focus on reading and writing rote learning. The creativity of children is not explored. Due to the busy work schedule of parents, most of the children do not have the opportunity to be socialized and creative. To provide opportunity to children (aged 6-12 years old) for socialization and creativity, such type of camps is very essential. At VIN working area Okhaldhunga, children dont have the proper

structure and environment at home and school to develop their innate talents. Childrens camp (at winter and summer breaks) is one of the best places to explore their innate talents and creativity. In this workcamp, national and international volunteers will facilitate different types of fun and creative activities for the target children where VIN works. Objectives: To provide unique opportunity for overall development (social, emotional, physical, mental, creativity)and provide fun-time for children aged 6-12 utilizing their vacation period. To promote the friendship, understanding and solidarity among local young volunteers and cross-national volunteers. To provide opportunity to understand and appreciate the Nepalese culture and tradition or cultural immersion. Work - Activities: The volunteers will conduct childrens camp to promote their innate talents and creativity for their overall development such as physical, mental, social and emotional. During children camp volunteers can prepare sessions and take classes on following topics: Physical exercises, Team Building, Drawing, coloring and painting, Art, Craft and Origami, Singing and dancing, Drama, Music, and Hiking, Teaching language and so on.

COMPLEMENTARY ACTIVITIES - LEISURE ACTIVITIES:

Either before or after your workcamp, there exists the option to undertake a short VIN-organized tour to one of Nepal¿s nearby attractions.

ACCOMODATION/FOOD:

The volunteers will stay in Kathmandu for two nights until orientation. VIN covers two nights¿ accommodation in twin sharing basis and provides lunch in its office on the orientation days. They have to cover breakfast and dinner themselves. Then they will be with the host family/hostel identified by VIN in Okhaldhunga. The living facilities are simple and basic. Male and female Volunteers will share the same living area with separate rooms. There will be 2-4 persons in one room. Volunteers are required to sleep on the simple beds. Please bring your sleeping bag. When they are in the city the last day, they are required to cover food and accommodation themselves

LOCATION:

Location: Okhaldhunga district which is 250 km from Kathmandu. It takes one day travel by bus. A hilly and mountainous region surrounded by woods and fields.

Placement Support Process: Each volunteer is greeted and received by VIN local staff from the airport and dropped to local host family. The first day is the arrival day. REQUIREMENTS:

Please send us your Motivation Letter along with CV(Resume) and have to pay 20 Euro extra for transportation.

DESCRIPTION OF WORKCAMP:

Okhaldhunga, District of the Himalayas .This small paradise on the earth is in the Everest Region. It is located in Sagarmatha zone in the North-East part of Nepal. Okhaldhunga is one of the most beautiful places in Nepal. If Okhaldhunga is viewed with sacred vision, it has numerous sights which are fascinating. VINs Project site (Taluwa, Bhadaure and Thulachhap VDCs) is on the South East part from the district headquarter, Okhaldhunga. From Kathmandu, bus route is about 250 km which is a rough trip that takes one day (9-12 hrs). In Okhaldhunga, VIN implements integrated approach to community development. Because of the geographical situation, it has limited developmental activities and facilities. Unlike Kathmandu, Okhaldhunga has numbers of illiterate people. Okhaldhunga lacks proper education facilities. Due to Lack of education facilities, young people move from Okhaldhunga to other cities like Kathmandu or fly abroad to secure proper education. There are schools but they dont impart quality. Not many people complete high school due to

poverty, not having good schools, resources and geographical remoteness. According to VINs baseline survey, there are only 91.56% children who have been attending school regularly, but 1.44% children are not regular in school. Similarly, 10.42% students dropout of the school. There are 2.99% families which are well aware about child rights and 20.69% families know a fair amount about child rights. But, 76.30% families do not know anything about child rights. Most children who drop out are involved in household work, field-farm work, households ploughing, labour in agriculture, collect grass-firewood, graze to cattle etc. Workcamps will be organized with the cooperation of local community schools, and community stakeholders to create child friendly teaching and learning environment. Most of the schools lack basic infrastructure like school building, education material, playground and drinking water. Volunteers can make a big difference in the daily lives of these children by providing necessities listed above and educating children through fun and creative ways. The workcamp will also involve teaching children from poor and marginalized community in the formal and non-formal schools about Basic English and Mathematics, Health and Hygiene, and Environmental protection through creative learning methods like art, music, games etc. There will also be house visits and meetings with local people as part of inter-cultural learning and to give awareness on health and hygiene. In addition, volunteers also will get a chance to take part in simple renovation work at local schools and engage in activities like painting, tree plantation, protecting from landslides etc. As part of the cultural exchange, volunteers will witness and participate in the available cultural programs with local community. Objectives: To create child friendly learning environment to the children of Okhaldhunga by developing resources and educational activities; To provide children from the disadvantaged communities a unique opportunity of overall development (social, emotional, physical, mental, creativity) and provide fun-time for children aged 6-12. To promote the friendship, understanding and solidarity among local young national and international volunteers. To make classroom child friendly by painting and colouring the classrooms. Teach different skills to the children. Work: Paint and decorate the class rooms. Renovate school areas, class rooms, walls etc. Teach the students Basic English and mathematics. Play sports, Teach basic English and mathematics, health and hygiene, and environmental protection through creative learning methods like art, music, games etc.

COMPLEMENTARY ACTIVITIES - LEISURE ACTIVITIES:

Either before or after your workcamp, there exists the option to undertake a short VIN-organized tour to one of Nepal's nearby attractions.

DESCRIPTION OF WORKCAMP:

Nepal is an agricultural country. About 80% of the peoples occupation is agriculture. Trade is also mainly of agricultural products. Agriculture provides raw materials for the industries. With the help of good manure, seeds, equipment and irrigation the growth of crops is increased in large quantity. Agriculture is known as the backbone of economy of Nepal. Agriculture occupation consists of three types: food crops, cash crops and mixed crops. Beside this, there are Livestock, Horticulture and Fishery. VINs Multi-Purpose Eco-Farm (MPEF) concept is based on low-external inputs and sustainable farming practices, which allow farmers to integrate different technical elements into the MPEF system. It will support to produce crops for both, home consumption and income generation. Adopting diversified agricultural activities, mono-cropping (rice or maize or wheat or millet) fields converts into integrated farms, which included fish ponds, fruit trees, cash crops, vegetable gardens and domestic animal husbandry. It is a five-year plan in Taluwa community, and is in partnership with local youths, which we aim to develop as a teaching farm for villagers. Modern technologies will be used and it will be

developed and become a complete Multi ¿purpose farm in five years. Organic and permaculture techniques will be adapted and specific farm layouts, species composition, cropping patterns and cultivation techniques will be introduced and monitored following the technical advice of agricultural experts. In Nepal agriculture is the main source of income of the people. However farmers are unaware about modern technology and multiple farms. Many local youth are migrating to other countries for labour. There is a big force of unemployed youth in the country. The main aim of the multiple farming is to provide opportunity to youth to get involved into the project. It will enhance the entrepreneurship skills among youth and women on agriculture. Objectives To train local people in the field of agricultural management, entomology, disease control, organic eco farming, marketing, farming techniques, irrigation and plant nutrition etc. To establish a model MPEF in Taluwa, Okhaldhunga To develop social entrepreneurs and run enterprises in rural Nepal To reduce youth migration for Labour to other countries To support earthquake victims. Work-activities Hands on activities with the MFEP local teams in the multipurpose eco-farm. Train local people in the fields of agricultural management, entomology, disease control, organic farming, marketing, farming techniques, irrigation and plant nutrition etc. Create mass awareness about the hazards of chemical pesticides so as to aware other farmers in the community into organic production. Local womens-farmers group in food crops, cash crops, mixed crops, livestock, horticulture and fishery etc. Train-work with the local communities on Vermi composting and composting; Low cost irrigation; Fodder cultivation and management; Organic farming etc.

COMPLEMENTARY ACTIVITIES - LEISURE ACTIVITIES:

Either before or after your workcamp, there exists the option to undertake a short VIN-organized tour to one of Nepal¿s nearby attractions.

The workcamp will also involve teaching children from poor and marginalized community in the formal and non-formal schools about Basic English and Mathematics, Health and Hygiene, and Environmental protection through creative learning methods like art, music, games etc. There will also be house visits and meetings with local people as part of inter-cultural learning and to give awareness on health and hygiene. In addition, volunteers also will get a chance to take part in simple renovation work at local schools and engage in activities like painting, tree plantation, protecting from landslides etc. As part of the cultural exchange, volunteers will witness and participate in the available cultural programs with local community. Objectives: To create child friendly learning environment to the children of Okhaldhunga by developing resources and educational activities; To provide children from the disadvantaged communities a unique opportunity of overall development (social, emotional, physical, mental, creativity) and provide fun-time for children aged 6-12. To promote the friendship, understanding and solidarity among local young national and international volunteers. To make classroom child friendly by painting and colouring the classrooms. Teach different skills to the children. Work: Paint and decorate the class rooms. Renovate school areas, class rooms, walls etc. Teach the students Basic English and mathematics. Play sports, Teach basic English and mathematics, health and hygiene, and environmental protection through creative learning methods like art, music, games etc.

COMPLEMENTARY ACTIVITIES - LEISURE ACTIVITIES:

Either before or after your workcamp, there exists the option to undertake a short VIN-organized tour to one of Nepal's nearby attractions.

ACCOMODATION/FOOD:

The volunteers will stay in Kathmandu for two nights until orientation. VIN covers two nights accommodation in twin sharing basis and provides lunch in its office on the orientation days. They have to cover breakfast and dinner themselves. Then they will be with the host family/hostel identified by VIN in Okhaldhunga. The living facilities are simple and basic. Male and female Volunteers will share the same living area with separate rooms. There will be 2-4 persons in one room. Volunteers are required to sleep on the simple beds. Please bring your sleeping bag. When they are in the city the last day, they are required to cover food and accommodation themselves.

LOCATION:

Okhaldhunga district which is 250 km from Kathmandu. It takes one day travel by bus. A hilly and mountainous region surrounded by woods and fields.

Placement Support Process: Each volunteer is greeted and received by VIN local staff from the airport and dropped to local host family. The first day is the arrival day. The second day volunteers will receive a full day orientation at VIN office in Kathmandu. The placement orientation will cover, cultural tips, survival phrases on Nepali language, health tips, and project activities preparation and about VIN. Then you will travel to Okhaldhunga, project site which takes minimum 8 hrs drive. You will be always guided by a Nepali camp leader/VIN staff and VIN supervisors will visit you time to time for follow up support. Should you have any concerns on the workcamp, you may always call us for immediate help. Before or after the workcamp, we will take you a half day sight-seeing to cultural heritage sites. On the last day of the workcamp, you will submit a detailed work report, fill up an exit form and sit with VIN executives for exit interview and feedback session.

Meeting point: VIN staff will pick each volunteer from the airport. The volunteers are requested to send their flight details to VIN on time so that we can send our staff with your name card and VIN's Logo.

If you want to come earlier and explore the country more, you may find pre-paid taxi at the airport or VIN may help you on that. You also can come VIN office, Balaju or Hotel Premium <http://www.hotelpremium.com.np/> on the first day at the latest 12.00 midday.

Airport : Tribhuvan International Airport, Kathmandu.

DESCRIPTION OF WORKCAMP:

Nepal is an agricultural country. About 80% of the peoples occupation is agriculture. Trade is also mainly of agricultural products. Agriculture provides raw materials for the industries. With the help of good manure, seeds, equipment and irrigation the growth of crops is increased in large quantity. Agriculture is known as the backbone of economy of Nepal. Agriculture occupation consists of three types: food crops, cash crops and mixed crops. Beside this, there are Livestock, Horticulture and Fishery. VINs Multi-Purpose Eco-Farm (MPEF) concept is based on low-external inputs and sustainable farming practices, which allow farmers to integrate different technical elements into the MPEF system. It will support to produce crops for both, home consumption and income generation. Adopting diversified agricultural activities, mono-cropping (rice or maize or wheat or millet) fields converts into integrated farms, which included fish ponds, fruit trees, cash crops, vegetable gardens and domestic animal husbandry. It is a five-year plan in Taluwa community, and is in partnership with local youths, which we aim to develop as a teaching farm for villagers. Modern technologies will be used and it will be

developed and become a complete Multi purpose farm in five years. Organic and permaculture techniques will be adapted and specific farm layouts, species composition, cropping patterns and cultivation techniques will be introduced and monitored following the technical advice of agricultural experts. In Nepal agriculture is the main source of income of the people. However farmers are unaware about modern technology and multiple farms. Many local youth are migrating to other countries for labour. There is a big force of unemployed youth in the country. The main aim of the multiple farming is to provide opportunity to youth to get involved into the project. It will enhance the entrepreneurship skills among youth and women on agriculture. Objectives To train local people in the field of agricultural management, entomology, disease control, organic eco farming, marketing, farming techniques, irrigation and plant nutrition etc. To establish a model MPEF in Taluwa, Okhaldhunga To develop social entrepreneurs and run enterprises in rural Nepal To reduce youth migration for Labour to other countries To support earthquake victims. Work-activities Hands on activities with the MFEP local teams in the multipurpose eco-farm. Train local people in the fields of agricultural management, entomology, disease control, organic farming, marketing, farming techniques, irrigation and plant nutrition etc. Create mass awareness about the hazards of chemical pesticides so as to aware other farmers in the community into organic production. Local womens-farmers group in food crops, cash crops, mixed crops, livestock, horticulture and fishery etc. Train-work with the local communities on Vermi composting and composting; Low cost irrigation; Fodder cultivation and management; Organic farming etc.

DESCRIPTION OF WORKCAMP:

A library is a collection of sources of information and similar resources, made accessible to a defined community-school for reference or borrowing. It provides physical or digital access to material, and may be a physical building or room, or a virtual space, or both. Learners are at the centre of learning in the library. In Nepal, there are not enough training organized for teachers and children on how to use library. So through this camp, volunteers will organize teaching - learning activating through the use of library resources. Its very fun and creative way of learning. Workcamps will be organized with the cooperation of local community schools under VINs childrens development program, education and working together with local teachers-children- villagers. The schools where we are conducting camps lacks facilities of library and other infrastructure. Some schools have some collections but they are not managed and used well. The rooms are not well painted and books are not arranged in the proper order. Children are not taught the skills of using library and its importance. You not only manage the library but also organize a lot of activities with children at school. You will also conduct some classes of how library is managed and used. The library camp will help children developing reading and writing skills. Volunteers with the abilities on any sports, arts and crafts, music, dance, drama, in and outdoor group games are welcome. Through this project we want to give every student an opportunity to learn, to enjoy reading, and to create new knowledge and understanding by the use of library. Objectives: To work for Children development project and exchange the experience, help school manage the library and teach children to use it in regular basis. Work: Clean and maintain the library. Arrangement of resources in the library and record them in proper order. Paint and decorate the library room. Conduct the session with children and teachers for the proper use of library. Organize different reading or writing activities with children in relation to use of library.

COMPLEMENTARY ACTIVITIES - LEISURE ACTIVITIES:

VIN takes you a half day cultural sightseeing. Either before, during or after your workcamp. VIN also organize weekends travel tours like Chitwan Jungle Safari, Pokhara, Nagorkot on extra costs if you are interested.

(The detail info sheet and acceptance letter will be sent from VIN after we receive your Complete Volunteer Exchange Form (VEF) from the sending organization)

ACCOMODATION/FOOD:

The volunteers will stay with the host family/hostel identified by VIN. The living facilities are simple and basic. Male and female volunteers will share the same living area with separate rooms. The volunteers sleep on simple beds / mattress. Please bring your sleeping bag.

LOCATION:

Tarakeswor municipality is situated outskirts of Kathmandu District. It is around 10-15 km from main ring road to Balaju, Kathmandu covered with hills, fields and woods.

Placement Support Process: Each volunteer is greeted and received by VIN local staff at the airport and dropped to a local host family. The first day is the arrival day. The second day volunteers will receive a full day orientation at VIN office in Kathmandu. The placement orientation will cover cultural tips, survival phrases on Nepali language, health tips, preparation for project activities and an introduction to VIN. Then actual workcamp starts from the third day. You will always be guided by a Nepali camp leader and VIN supervisors will visit you time to time for follow up support. Should you have any concerns on the workcamp, you may always call us for immediate help. During or after the workcamp, our staff will take you on a half day sight-seeing tour to cultural heritage sites. On the last day of the workcamp, you will submit a detailed work report, fill up an exit form and sit with VIN executives for exit interview and feedback session..
