**DESCRIPTION OF WORKCAMP:**

PROJECT: Work camp will be situated not far from Saint Petersburg. Country Estates of the St. Petersburg region were built in 18-19 centuries. Among the owners, there were members of the royal family and famous public officials, military leaders, artists, composers, architects, writers, such as Vrangell, Repin, Nabokov, Rerikh. Many of country houses were damaged, especially the parks, landscapes and interiors. We want to bring the former meaning to the country estates as pieces of world heritage. Today the restoration of the country estates is an important task together with the renewal of their unique parks. We expect the activity of our volunteers will help to achieve the following aims: to raise awareness among the local community regarding heritage and the importance their participation in preserving it . The workcamp will be mobile, it gives volunteers a great opportunity to learn more about historical background of estates, Russian arts and culture of the 19 century.

The volunteers will be engaged in improving estates parks: take care of trees, mow the meadows, clean the hollows, sweep and clean the paths out of the garbage, etc. Volunteers will be working 5 hours per day 5 days a week under the supervision.
