TECHNICAL FEATURES OF THE SAMPLE

"YOUTH, SOLIDARITY AND VOLUNTEER WORK"

Scope	National
Universe	Spanish population of both sexes, aged 15 to 29.
Sample size	1475 interviews
Affixation	Proportional
Sampling points	157 municipalities and 42 provinces
Sample procedures	<p>Multi-stage, divided into strata, selecting the primary sample units (municipalities) and the secondary units (sections) with a probability according to its size, and the last units (individuals), through random routes and sex and age quotas.</p> <p>The strata have been formed by combining the 17 autonomous communities with the size of the habitat, which is divided into 7 categories: below or equal than 2,000 inhabitants; from 2,001 to 10,000; from 10,001 to 50,000; from 50,001 to 100,000; from 100,001 to 400,000; from 400,001 to 1,000,000, and over 1,000,000 inhabitants.</p> <p>The surveys have been done following a personal interview system at home.</p>
Sampling error	In the simple random sampling, with a confidence coefficient of 95.5% (two sigma) and $P = Q$, the real sampling error is $\pm 2.6\%$.
Dates	10 - 18 June 2006
Field work:	Centre for Sociological Research (CIS)

CONTENTS:

- Some solidarity actions done by young people such as giving blood; attending fund-raising concerts; giving money to countries or people who need it, talking with friends about needy countries or people; dedicating some hours of their spare time to an activity towards helping others.
- Support to underdeveloped countries – 0.7% GDP
- Opinion about solving problems in their country first
- Opinion about the level of poverty in Spain and the causes behind it
- Evolution of social inequalities in Spain and in the world
- Definition of solidarity
- Opinion about education for solidarity given at schools
- Institutions and their contribution to solidarity
- Volunteer work of greater interest for young people
- Experience as volunteers and last time they collaborated
- Intention to collaborate amongst those who never collaborated as volunteers and reasons not to collaborate amongst those who have shown an intention to do so
- Collaboration in some volunteer organisations by providing an economic contribution
- Collaboration in solidarity actions whether they are due to extraordinary events or not
- Identification with solidarity actions according to different levels of action
- Volunteers in our environment
- Awareness of volunteer programmes developed by the City Council
- Importance awarded to volunteers
- Characteristics defining volunteers and motivations they have to do their job
- Opinion about getting some kind of compensation for doing volunteer work
- Role of public administrations in volunteer work

- Political ideology
- Nationality and year they arrived to Spain
- Civil status or cohabitation situation
- Economic dependence or independence
- Usual place of residence
- Occupation
- Religious beliefs
- Centre where they studied primary education
- Level of qualification
- Person earning the highest income at home
- For that person when it is not the youngster him/herself: occupation, professional situation, professional relationship of the payees and activity of the company

Results per SEX AND AGE GROUPS

P1. For each of the things I am going to read out, tell me whether you have done it sometimes, quite often, many times or never.

1.1 Giving blood

	Total	Sex		Age groups (3)		
		Men	Women	15-19	20-24	25-29
Based on: (N=)	(1475)	(757)	(718)	(393)	(498)	(584)
Never	84,3%	84,5%	84,1%	93,6%	83,5%	78,8%
Sometimes	11,7%	11,1%	12,4%	5,1%	13,3%	14,9%
Quite often	3,0%	3,6%	2,4%	,8%	2,6%	4,8%
