## RESULTS TABLES SUBJ ECT1

Young People Health and Sexuality

INJ UVE Study E 132

The aim of THE BULLETIN "CIFRAS GENTE JOVEN - SONDEO DE OPINIÓN" ("YOUTH FIGURES OPINION POLL"), is to publish and make known the results of OPINION POLLS and the SITUATION AFFECTING YOUNG PEOPLE that are conducted by INJUVE, with a view to finding out the opinions and attitudes of young people where their own personal situations, their relationships, their aims, their motivations and their life styles are concerned.

Observatorio de la Juventud en España
(Spanish Youth Observatory)

## TECHNICAL CHARACTERISTICS OF THE SAMPLE

POLL ( ${ }^{\text {st }}$ SURVEY 2008)

## SUBJECT: YOUNG PEOPLE, HEALTH AND SEXUALITY

## Scope National

Universe Spanish residents of both sexes between 15 and 29 years.

Sample Size I,442 interviewees

Affixation Proportional

Sampling Points 177 Boroughs and 46 Provinces

| Sampling Procedure | Multi-stage, stratified into clusters, with selection of the primary sampling units (Boroughs) and the secondary units (sections) with probability proportional to their size, and the final units (individual) through random routes and sex and age groups. <br> The strata were formed by the intersection of the 17 Autonomous Regions with the habitat size, divided into 7 categories: less than or 2,000 inhabitants; from 2.001 to 10,000 ; from 10,001 to 50,000 ; from 50,001 to 100,000 ; from 100,001 to 400,000 ; from 400,00 I to $1.000,000$, and more than $1,000,000$ inhabitants. <br> The questionnaires were applied by means of personal interviews at the targets' homes. |
| :---: | :---: |
| Sample Error | In a simple random sample, with a reliability level of $95.5 \%$ (two sigmas) and $P=$ Q , the actual sample error is $\pm 2.61$ \%. |
| Survey Date | From 14th to $21{ }^{\text {st }}$ February 2008 |
| Field Work: | Centro de Investigaciones Sociológicas (CIS) (Centre of Sociological Research (CIS)) |

## SUBJECT MATTER: YOUNG PEOPLE AND SEXUALITY

- Evaluating the state of health
- Visits to the doctor's surgery over the last year
- Medical service used
- Approximate weight in Kg .
- Height in cm .
- Personal perception of physical appearance
- Monitoring diet
- Reason for going on a diet
- Factors that most affect the body image
- Number of days per week that they wash their hair, take a shower or have a bath
- Number of times per day that they brush their teeth
- Number of hours sleep on working days and at weekends
- Assessment of current physical fitness
- Physical exercise done in spare time
- Experience with full sexual relations
- Age at which they had their first sexual relations
- Frequency with which they usually have sexual relations
- Ease with which they can have a condom available when they have sexual relations
- Number of times that they used a condom in the last three sexual relations that they have had

## SOCIODEMOGRAPHIC VARIABLES

## - Political ideology

- Nationality and year they arrived in Spain
- Marital status, living together
- Place where they usually live
- Occupation
- Religion
- Primary school that they went to
- Level of qualifications
- Person who brings most income into the home
- For that person when it is not the young person in question: occupation, professional situation, occupational relationship of the salary earner and the activity of the company

## Results by SEX AND AGE GROUPS

## HEALTH AND SEXUALITY

13. Let's change the subject. I n the last 12 months ... How would you describe your health?

|  |  | Sex |  | Age Groups (3) |  |  |
| :--- | ---: | ---: | ---: | ---: | ---: | ---: |
|  | Total | Male | Female | 15-19 | 20-24 | 25-29 |
