## "FRIULIO"

### DESCRIPTION :

In Friol, important megalithic and castreño vestiges are preserved, among others, the best known being the fortress of San Paio de Narla. This land was also occupied by Romans and Visigoths.

### DESCRIPTION OF WORK:

- Work on the improvement and enhancement of the Castro Friulio, and help in the restoration and consolidation of various structures.
- Active participation in the organization and execution of the Il Malla in Castro Friulio, an event that took place for the first time in 2022, coinciding with the first edition of this Work Camp. It is about recovering the tradition of the wheat mesh, which was much more than the sifting of cereals. LA MALLA, what is?: Before the harvesting machines did everything: mowing, extracting the grain, packing the straw,... it was done manually. One of the most important cooperative works in rural agriculture was "LA MALLA". This communion between all the neighbours, uniting effort and sweat,... takes the step of becoming an almost extinct secular tradition in a good part of our Galicia.
